Atto Editor Full screen

2 Aug 2023

Installing the plugin If your an EssingtonITS client using our SaaS, VPS Hosted or Self Hosted environment you can install Atto full screen from the Moodle plugin repository in the usual way.

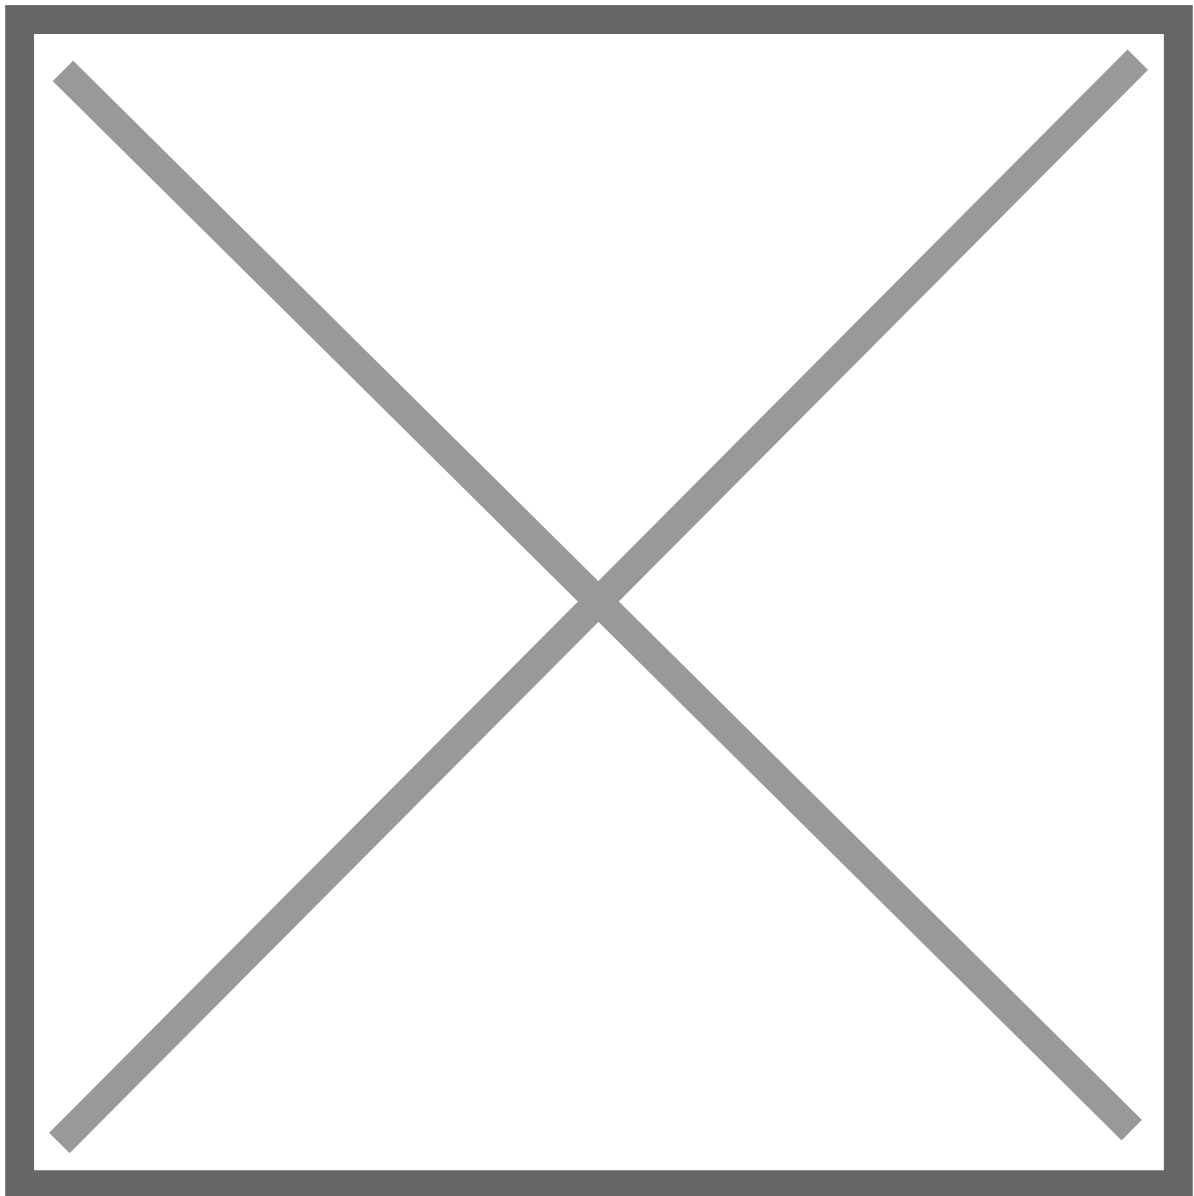

Once installed you will need to add the editor button the Atto toolbar settings. `fullscreen = fullscreen` *Site Administration-> Plugins ->Text editors->Atto HTML editor->Atto toolbar settings*

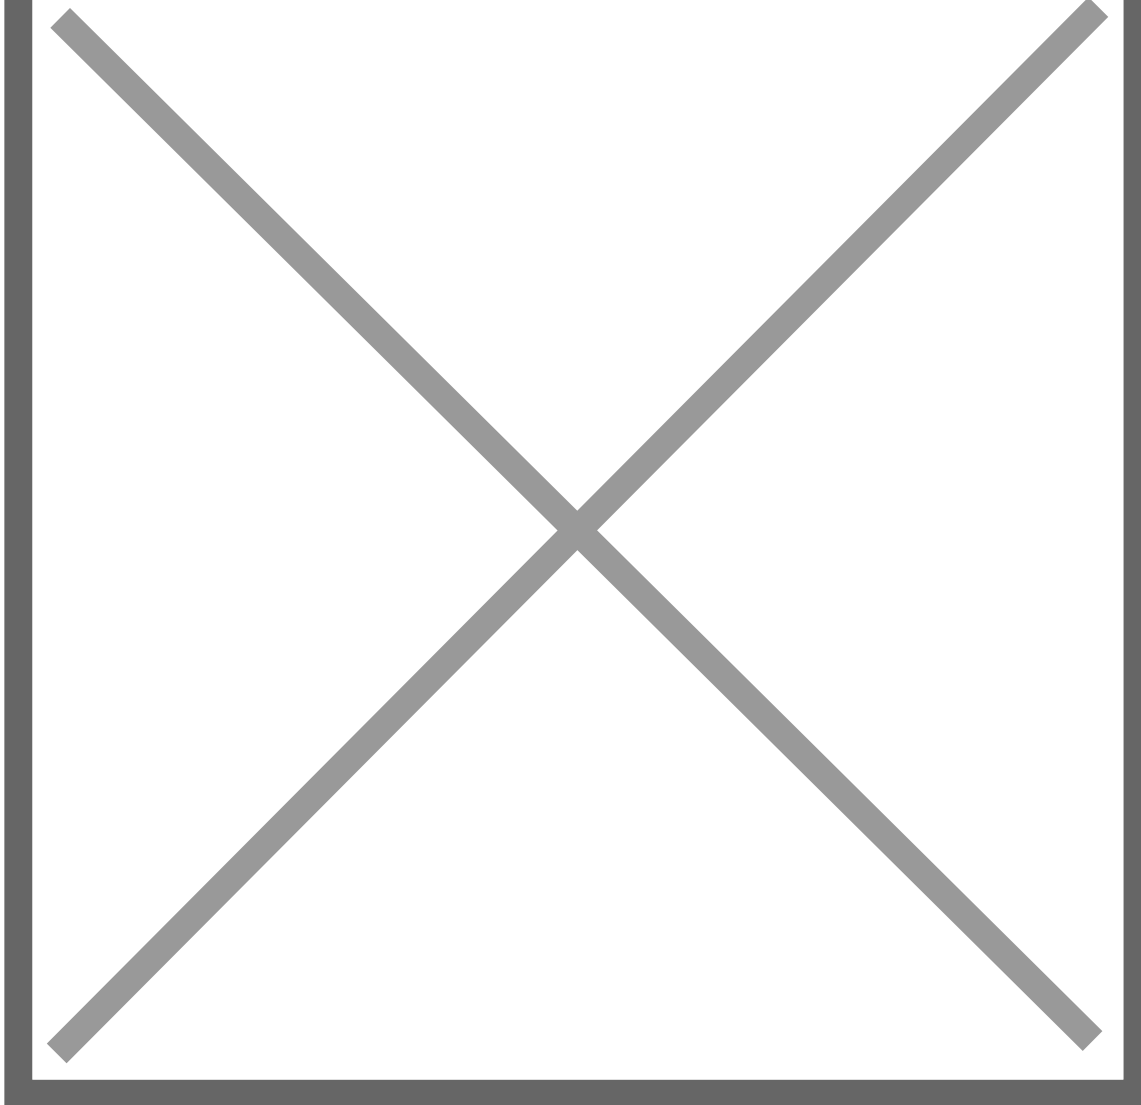

Your usual window within Moodle can be quite limited depending on the theme used.

Once installed and configured you can find a new icon on the extended toolbar

Clicking

the full screen button will push the editor to the full width and height of the browser window giving you a much better working view, clicking the full screen button again will return the view to normal size.
