Configure Stripe course payment method

20 Jan 2024

- [Configure the Stripe Enrolment plugin](#)
- [Configure the course enrolment and payment settings](#)
- [Testing the configuration](#)

Configure the Stripe Enrolment plugin

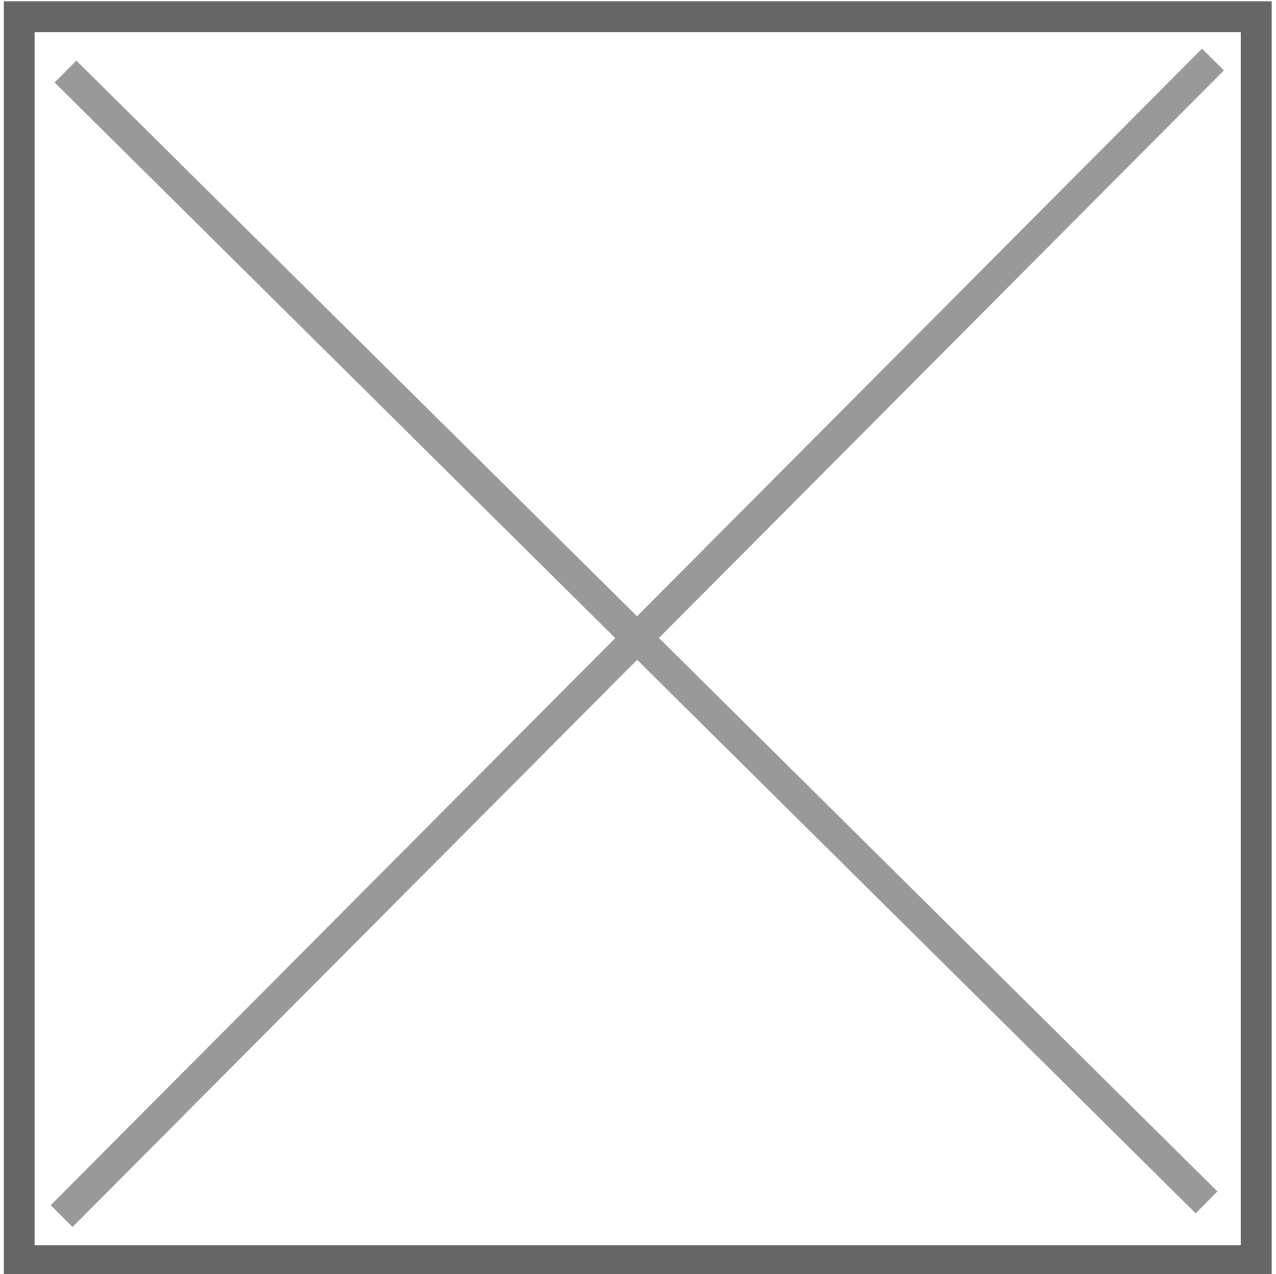

Administration -> Plugins -> Enrolments -> Manage enrol plugins

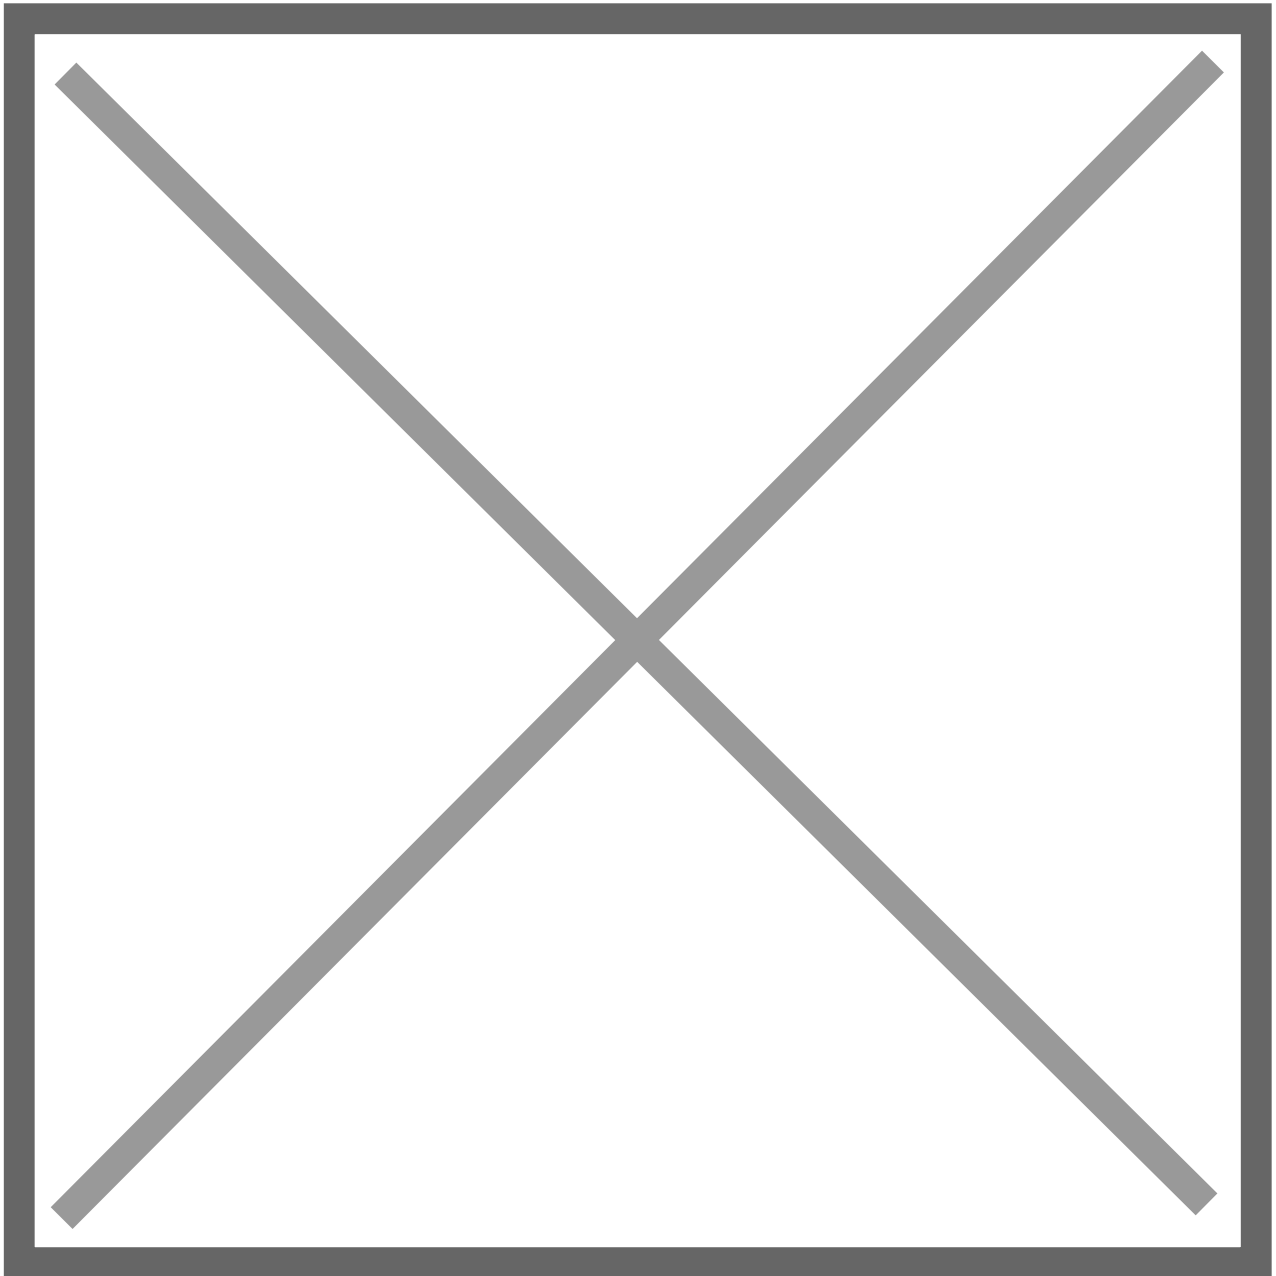

Enable the plugin

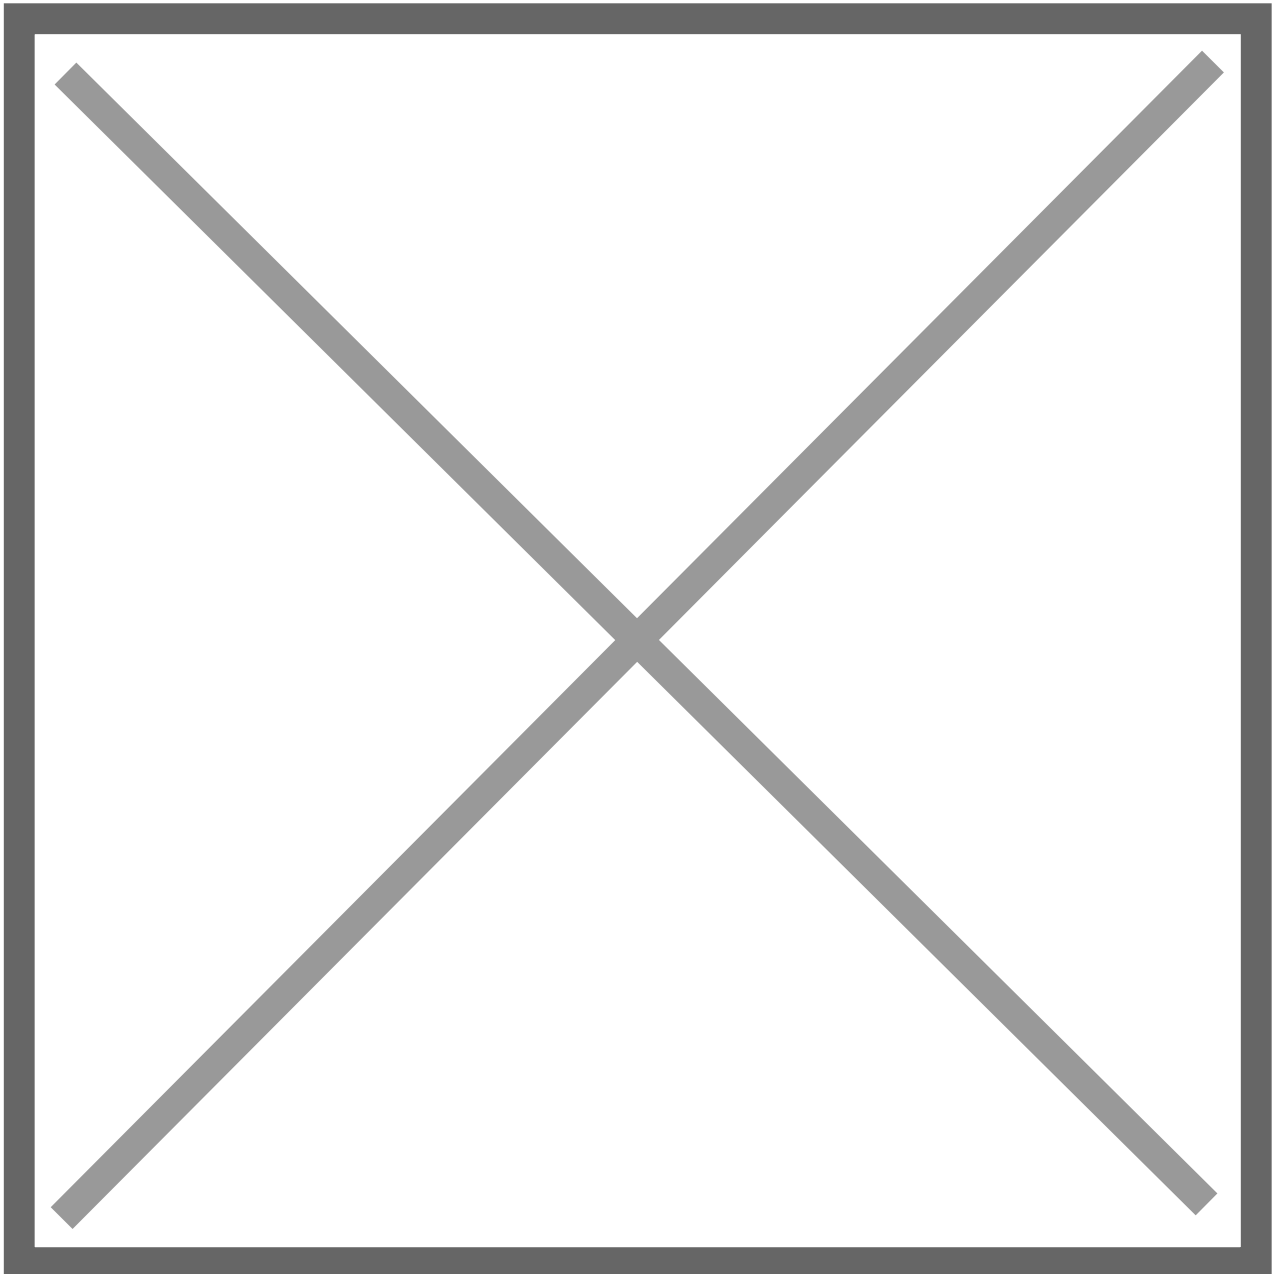

Select plugin settings

Locate either your test or production stripe secret key and publishable key, you can find this within your stripe account

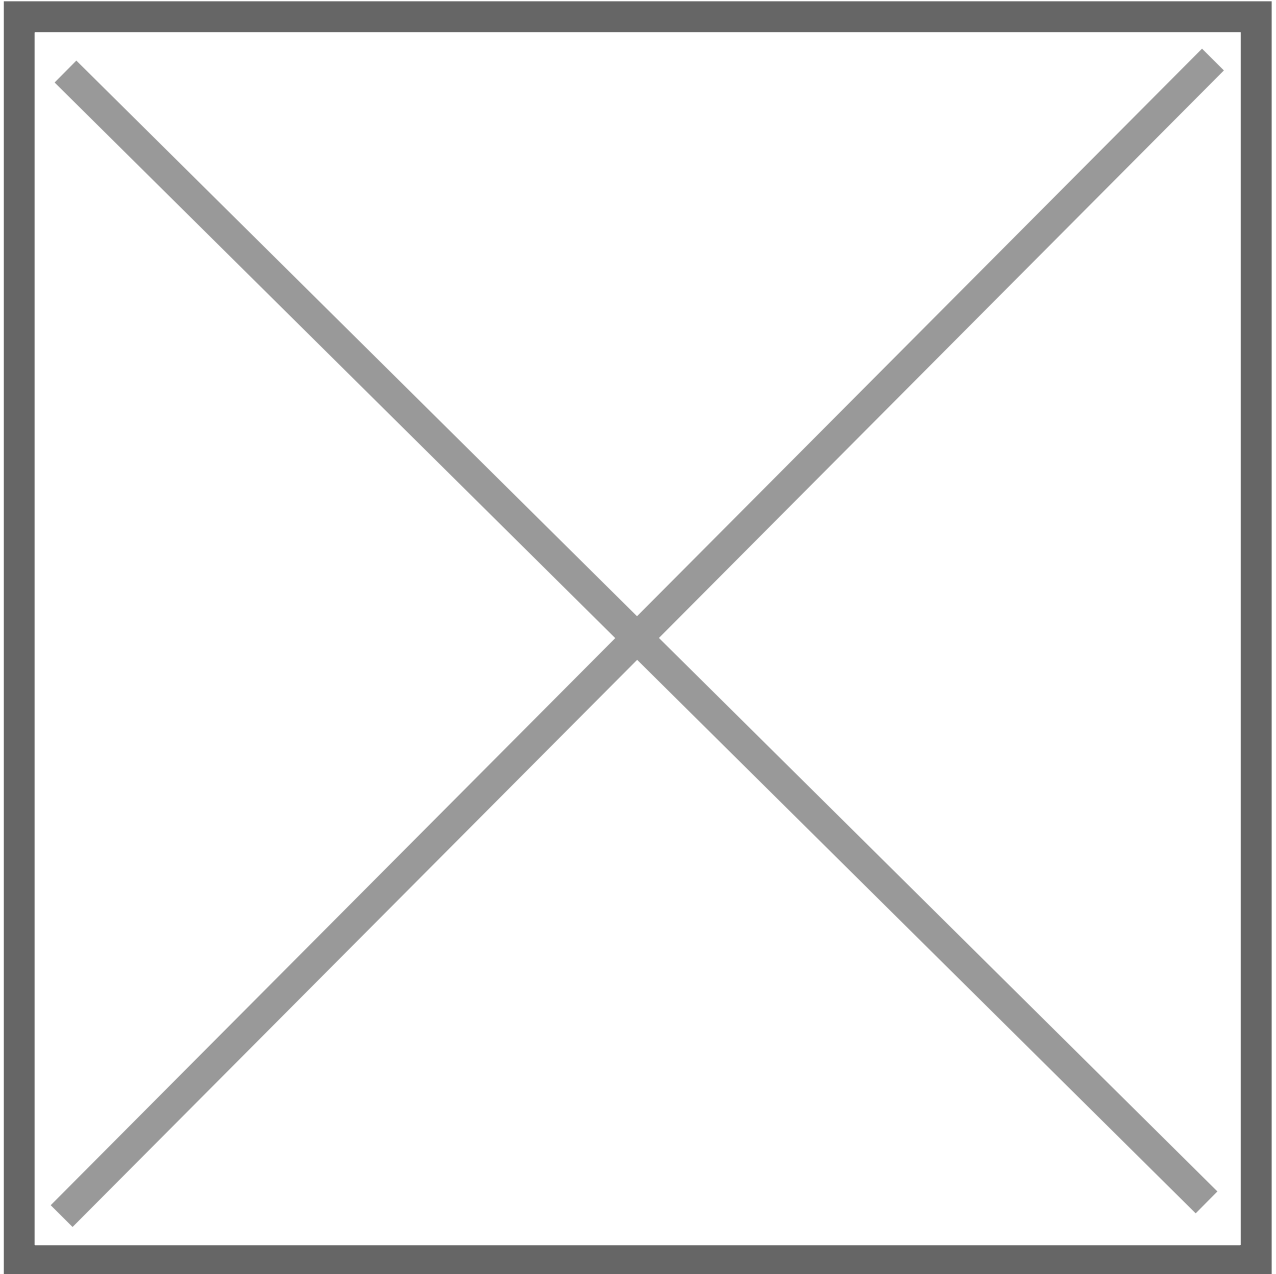

Copy and paste the keys into your stripe enrolment settings

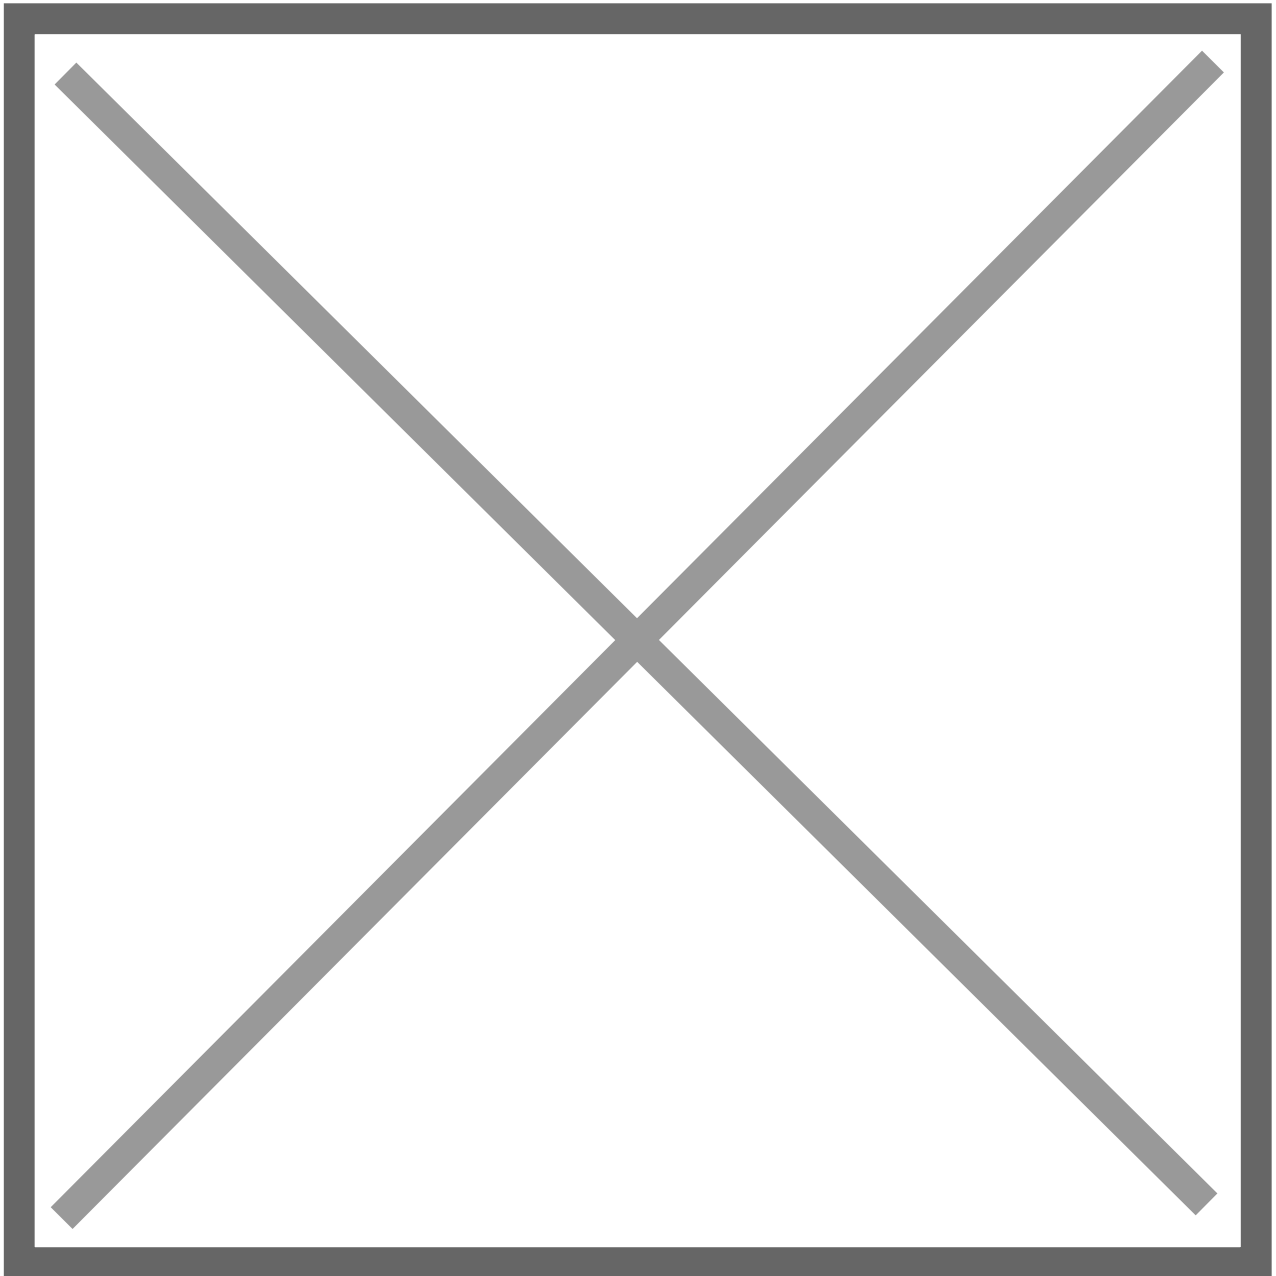

Select the enrolment expiration action

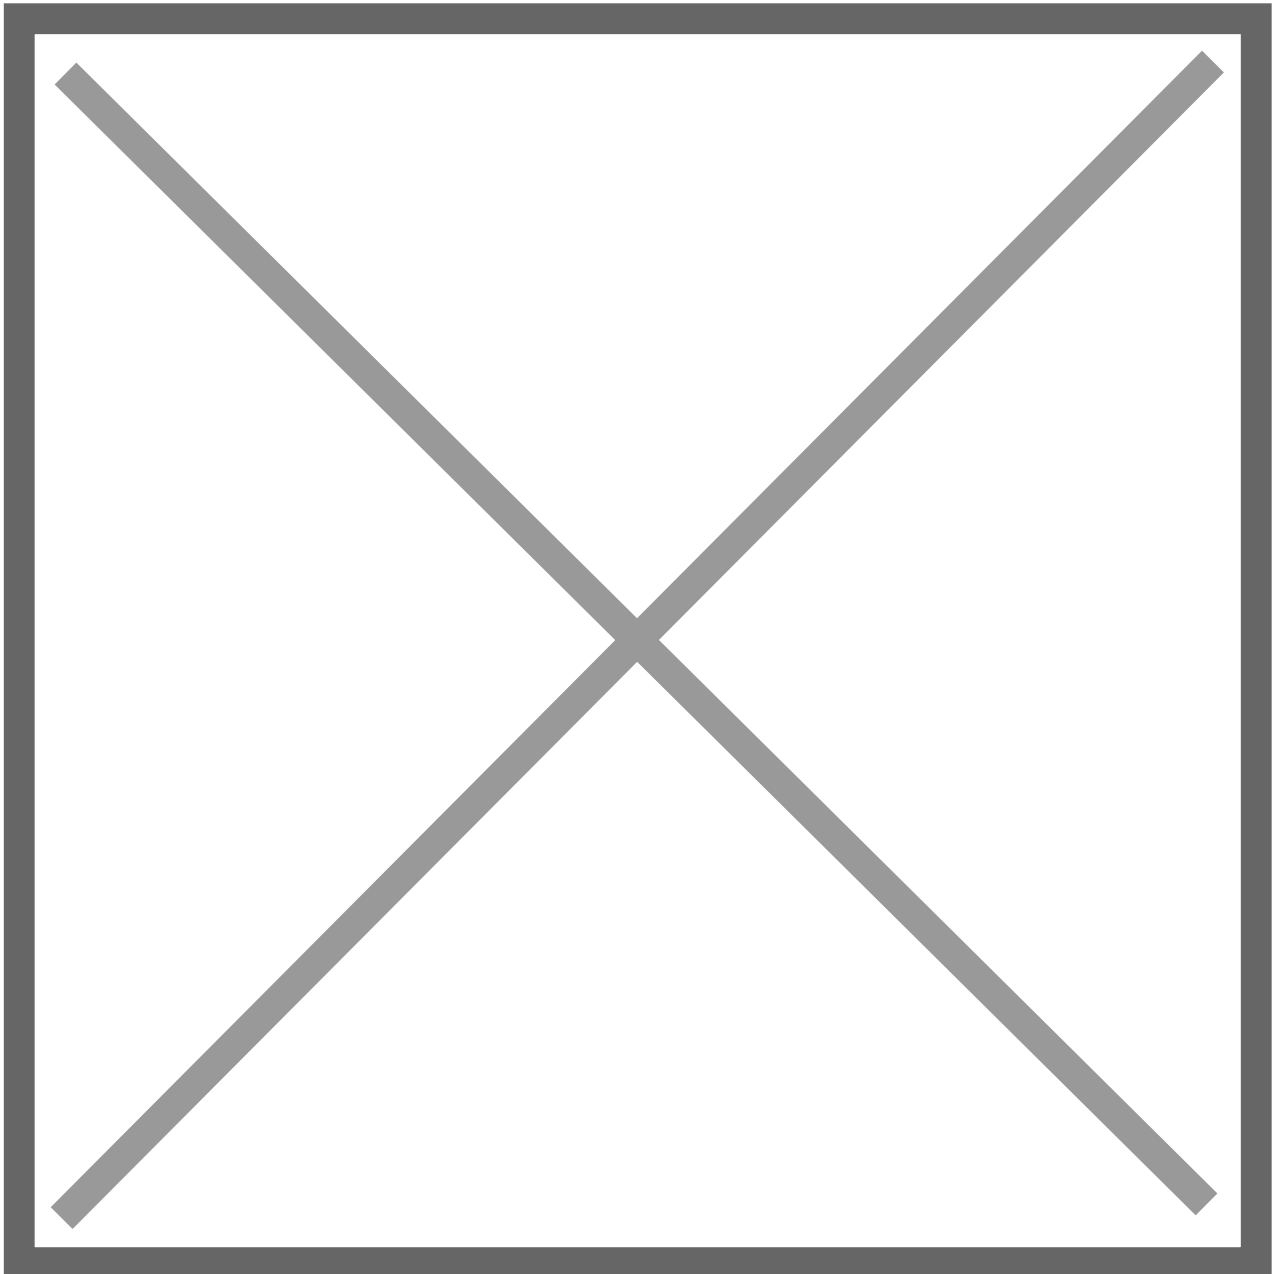

- Keep user enrolled
- Disable course enrolment and remove roles
- Unenrol user from course

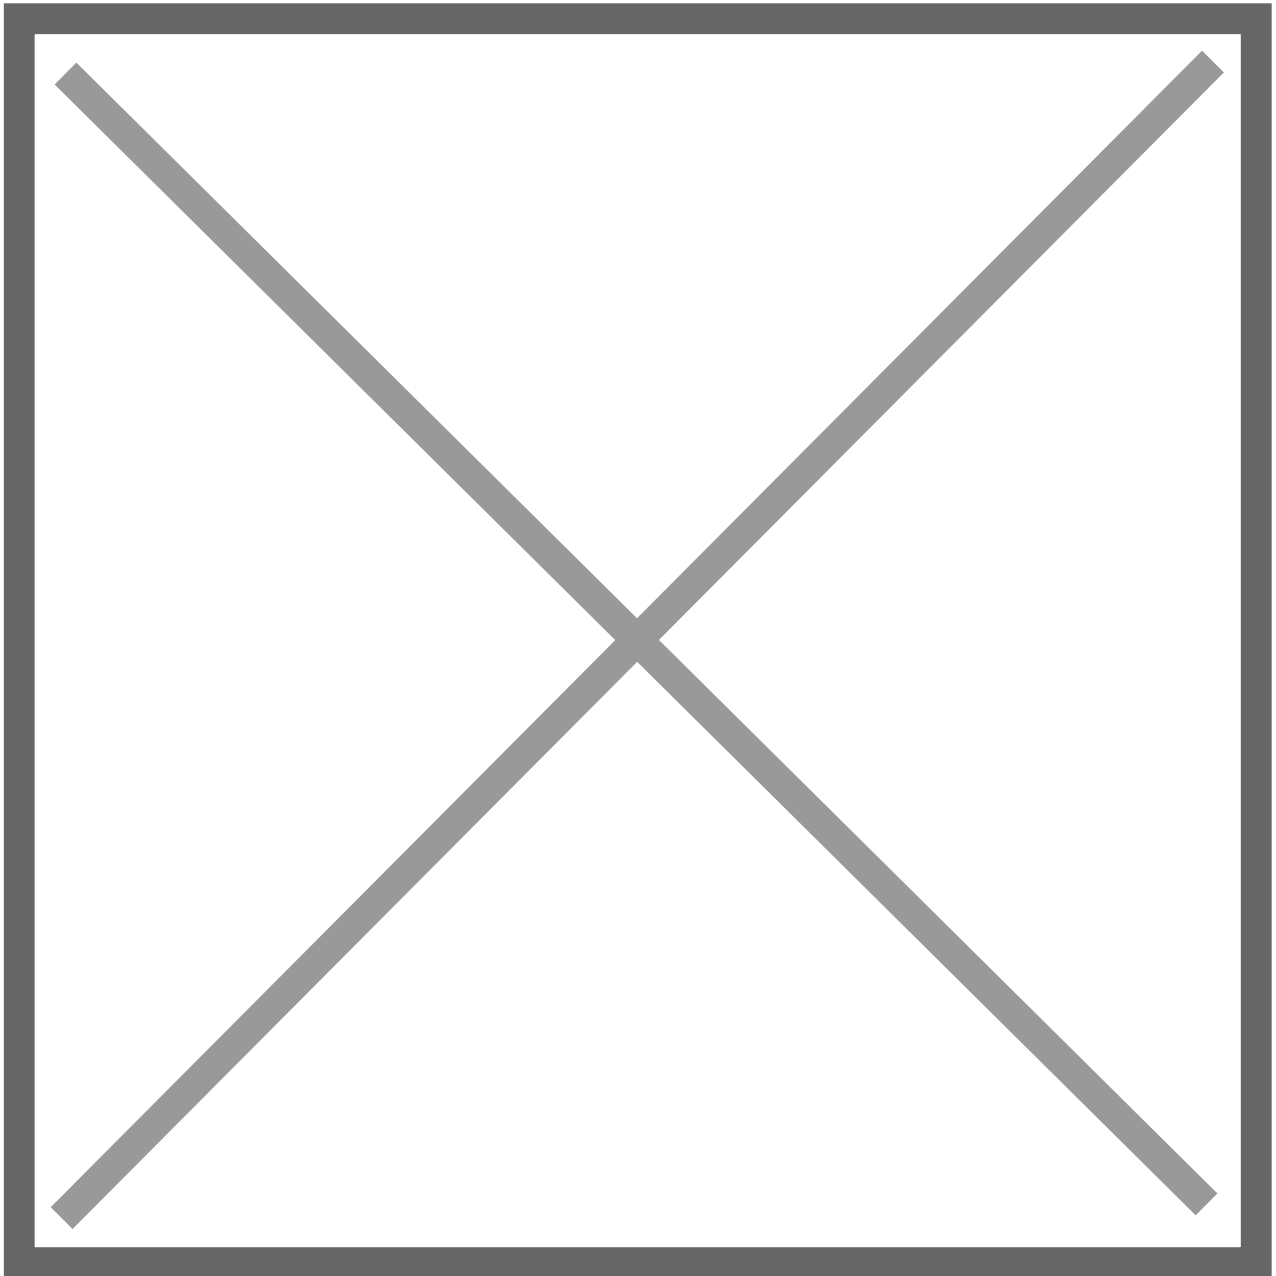

Create your web service token

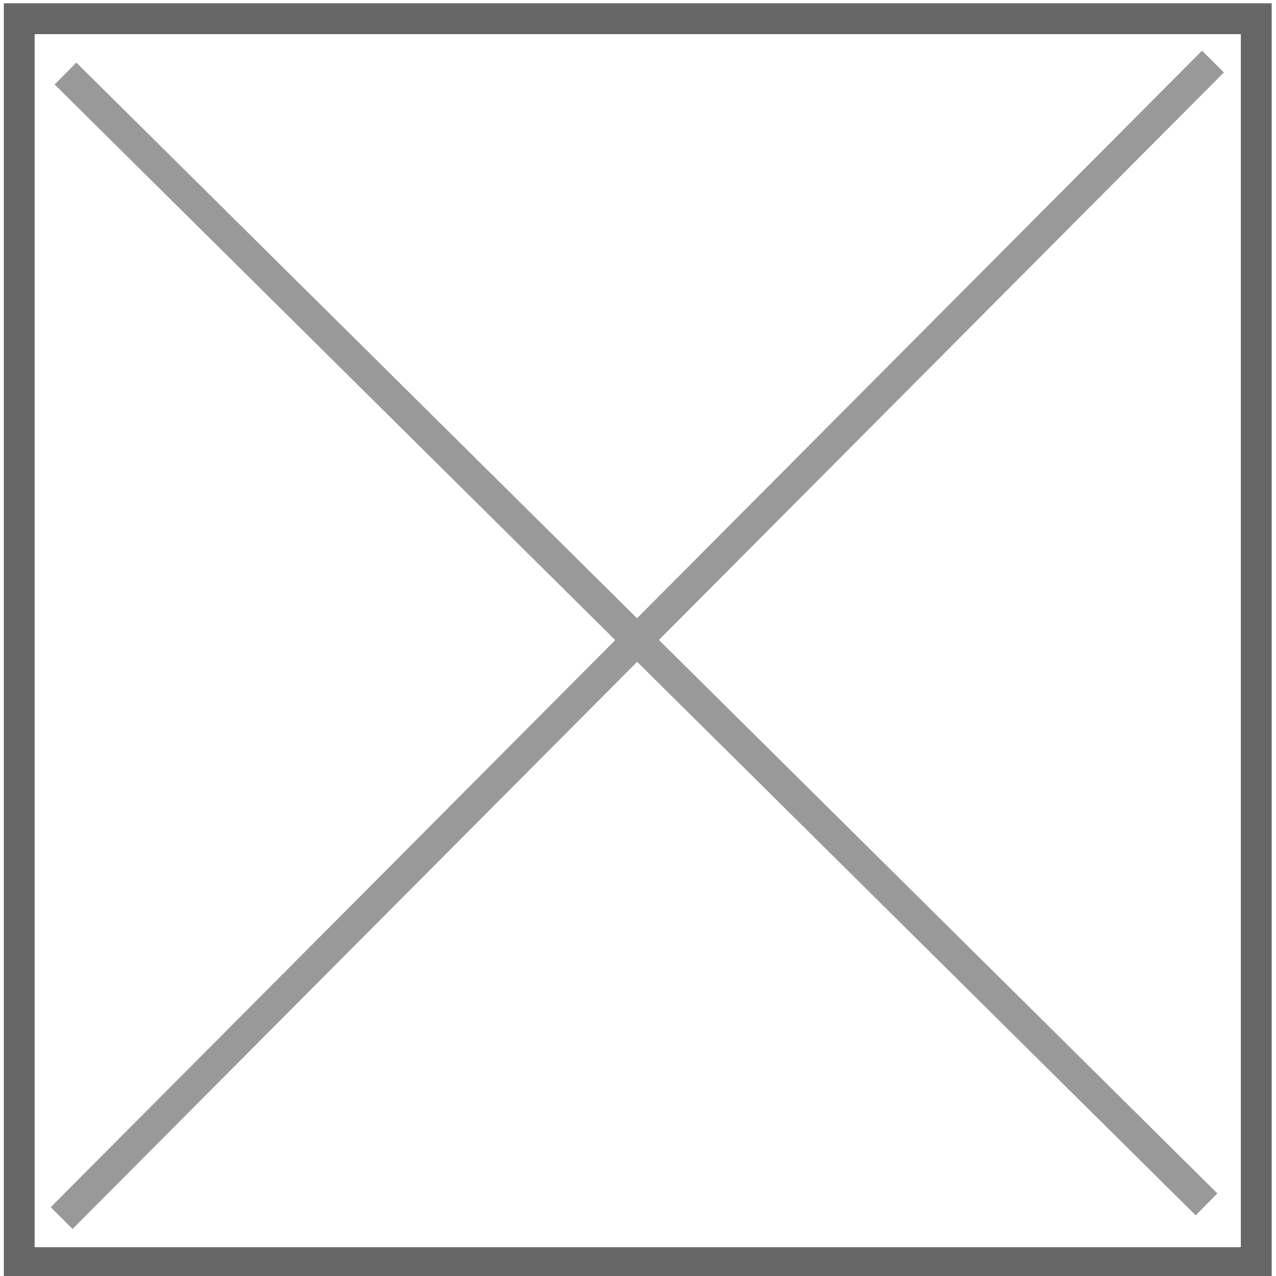

Click "Create token"

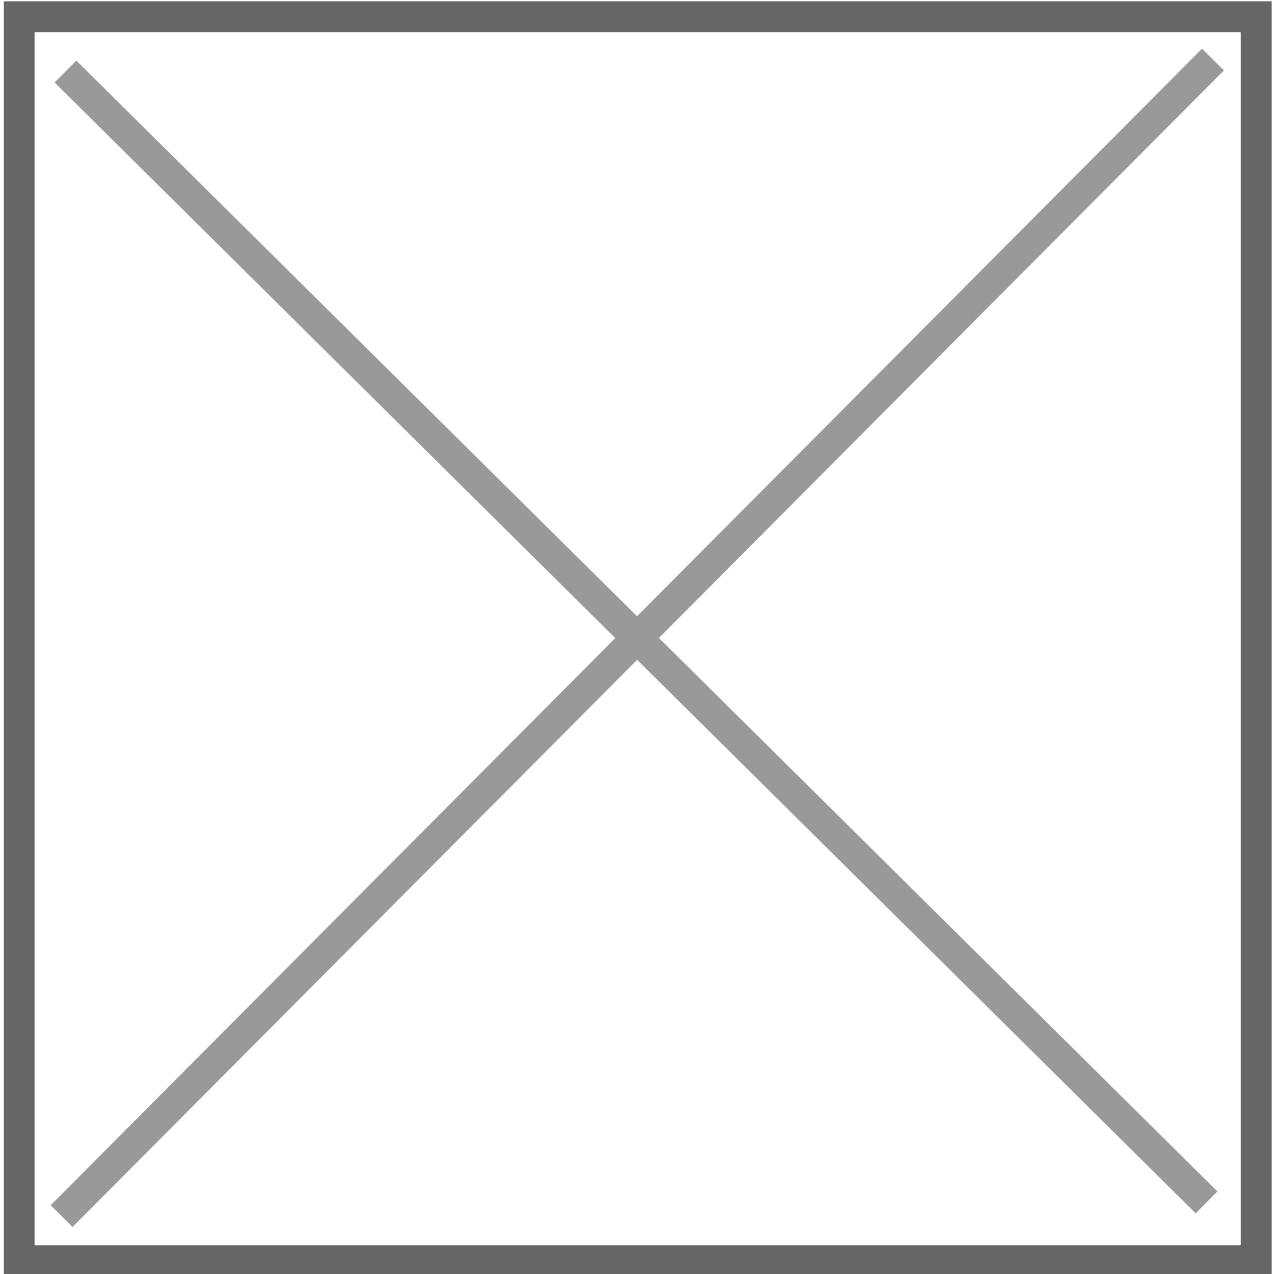

1. Enter the token name
2. Select a user with administrator privileges
3. Select "**moodle_enrol_stripepayment**"
4. Configure or disable "**Valid Until**"
5. Click "**Save Changes**"

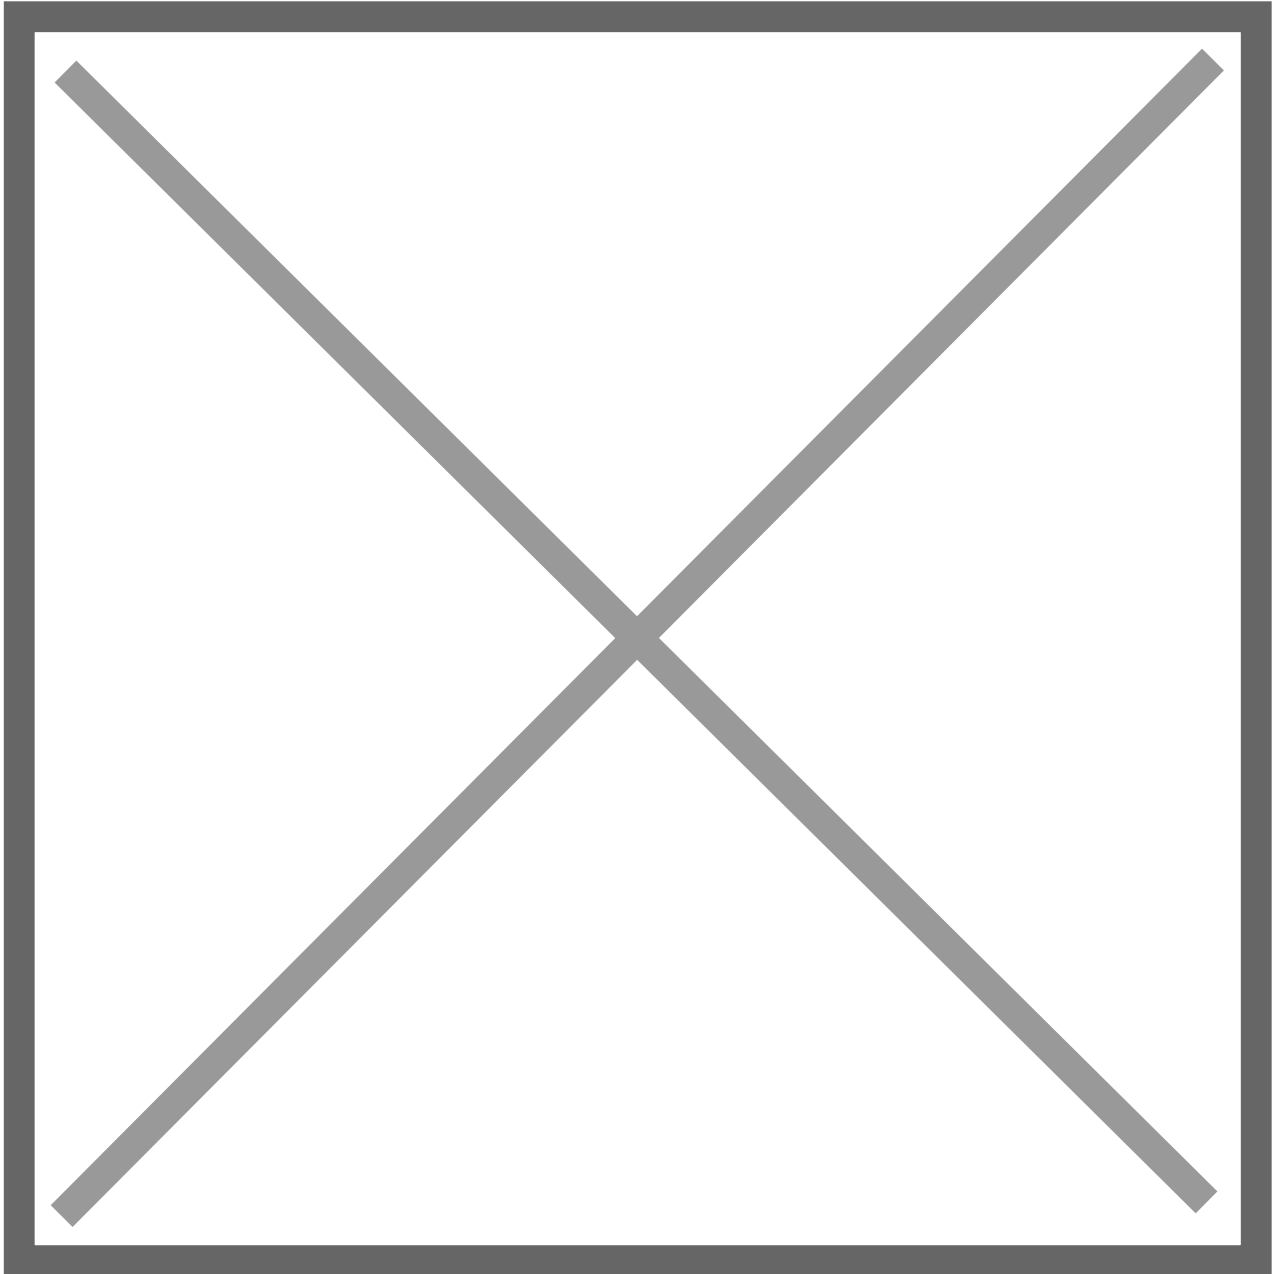

Copy the web service token to the clipboard

Paste the token into the "User Token" field

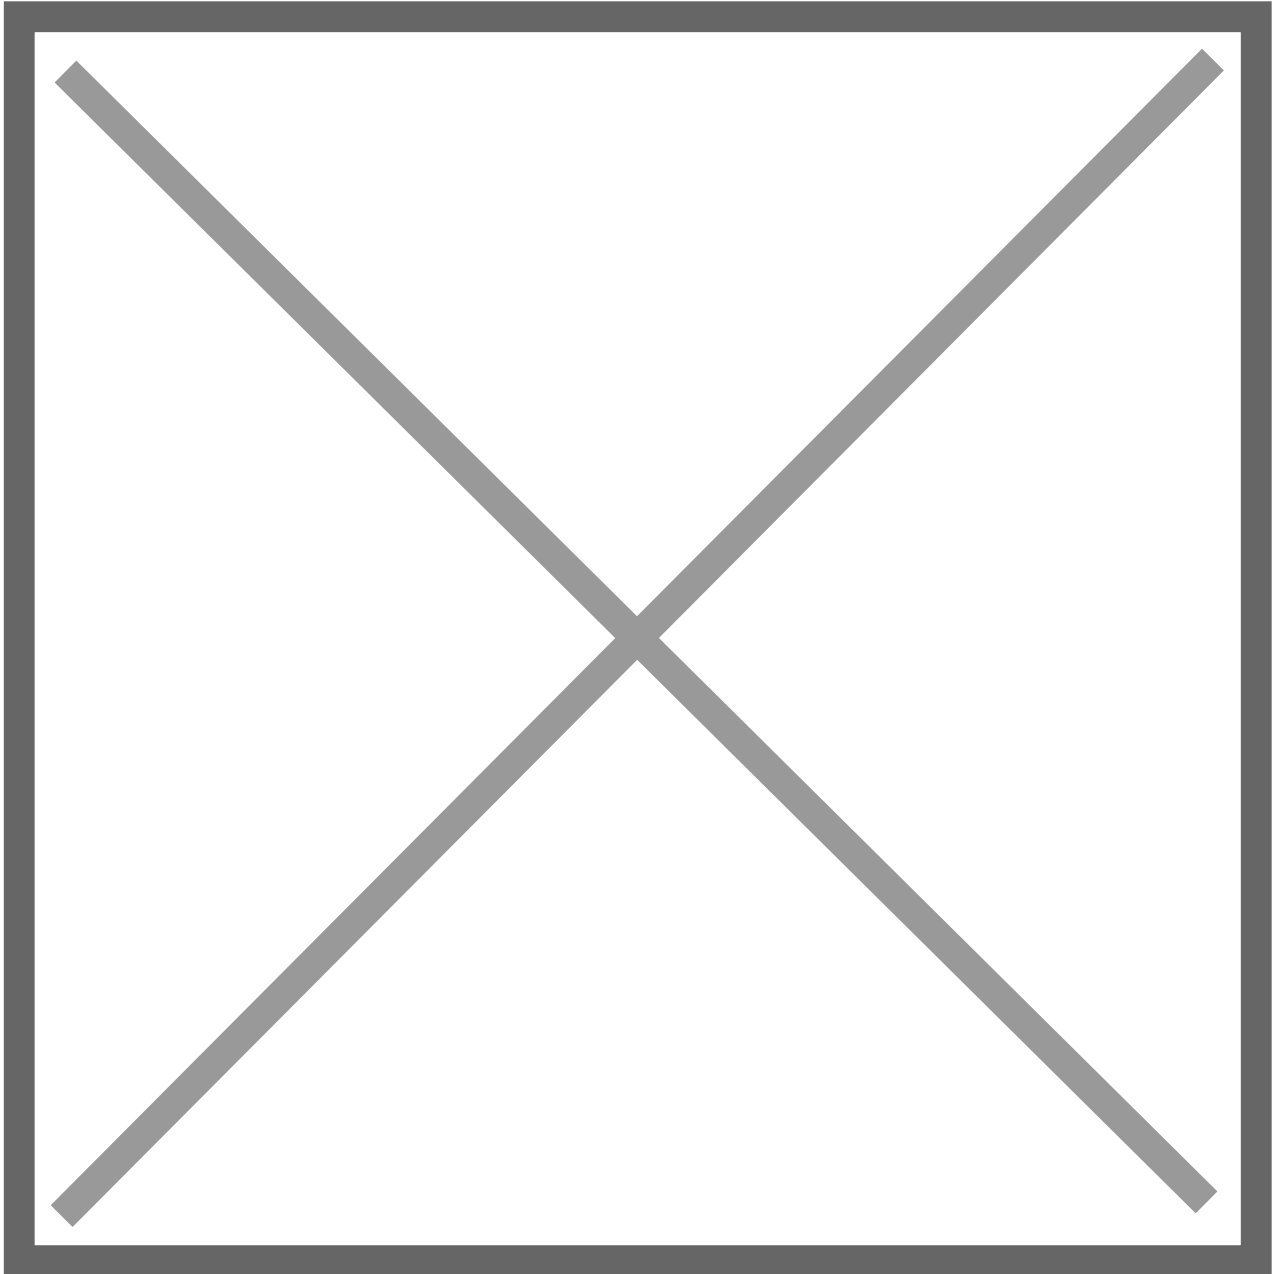

Click "**Save Changes**"

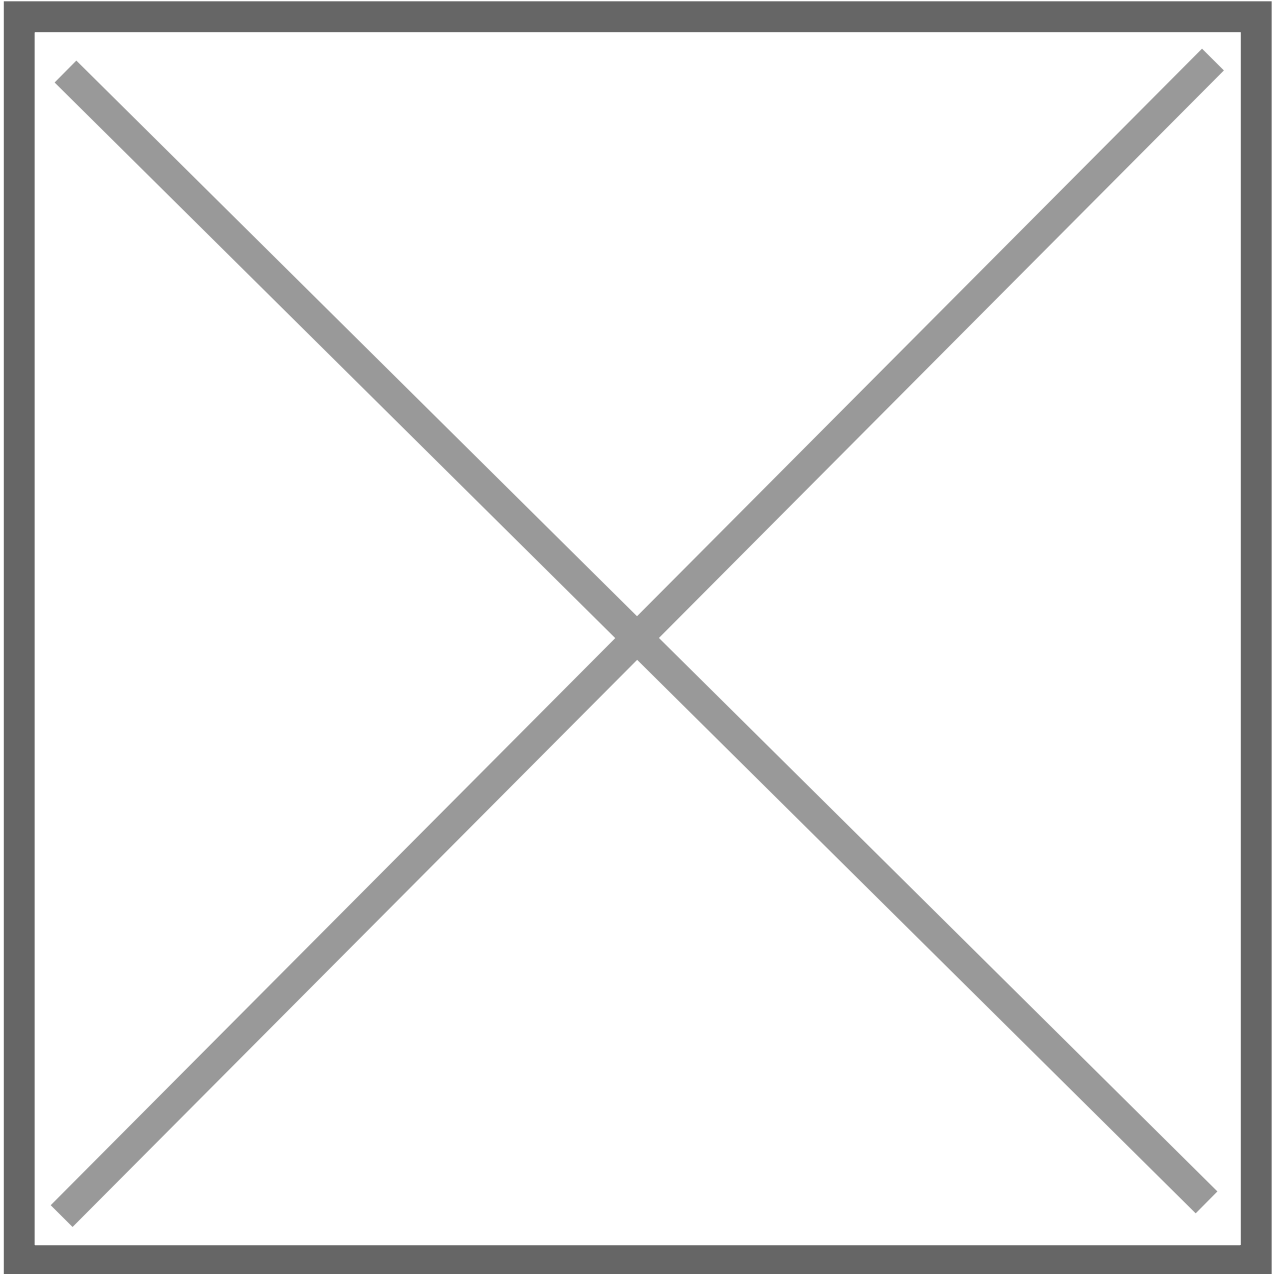

Configure the course enrolment and payment settings

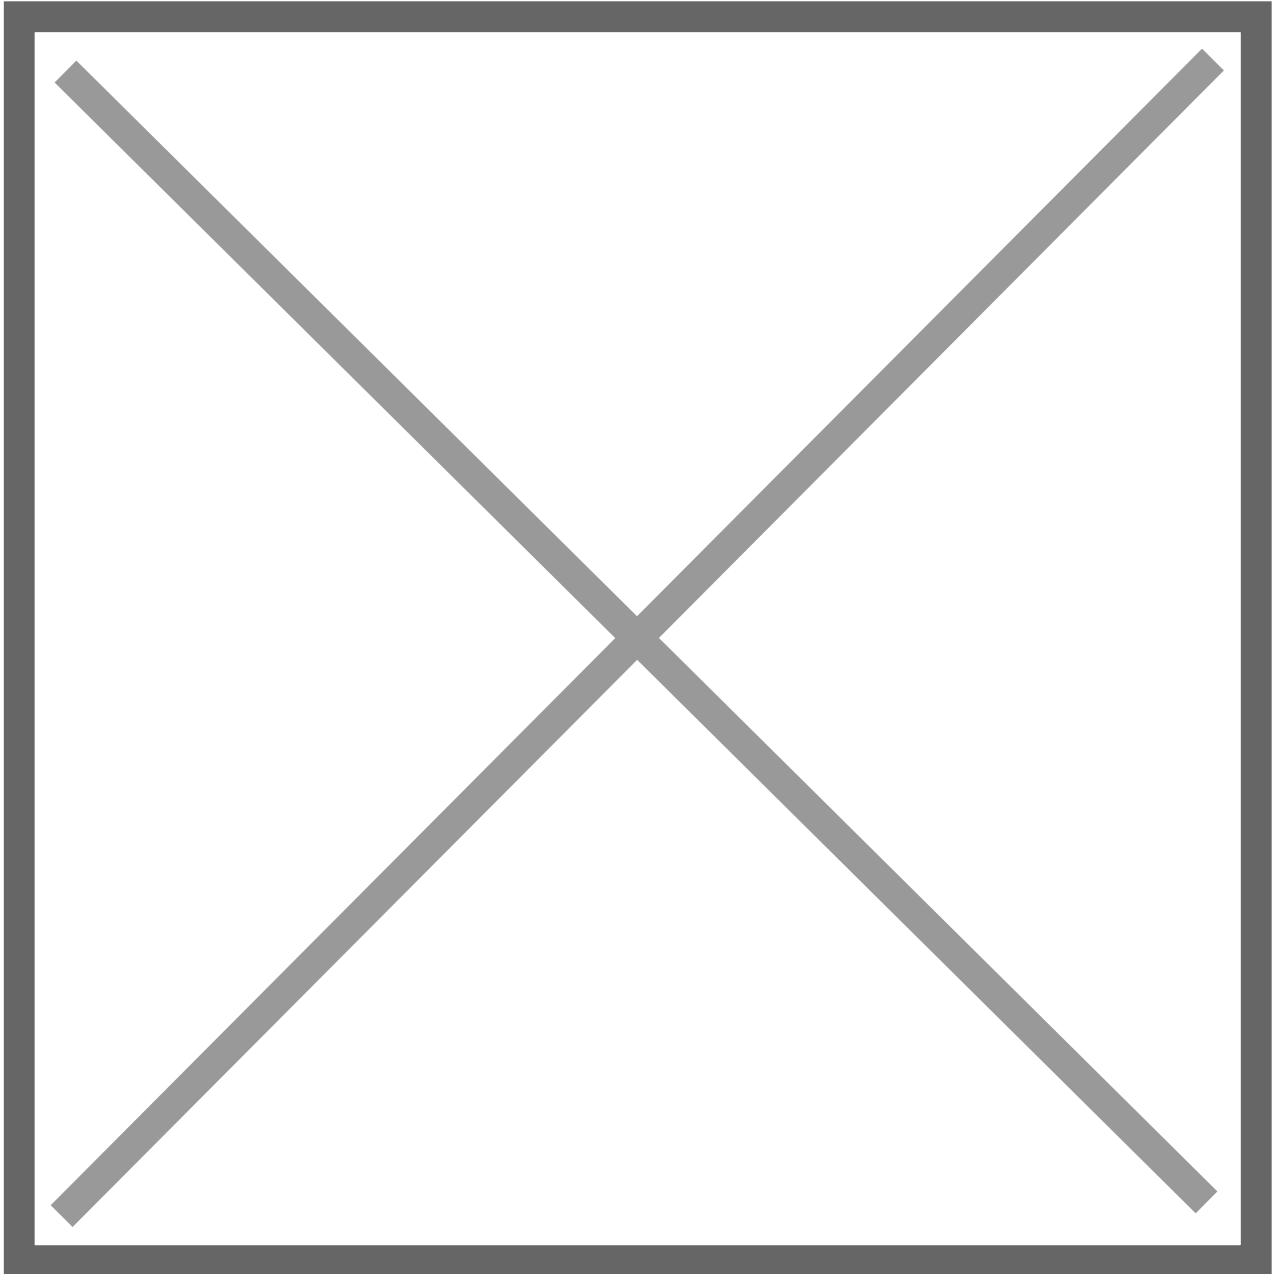

Locate the course you require payment for and turn on "**Edit Mode**"

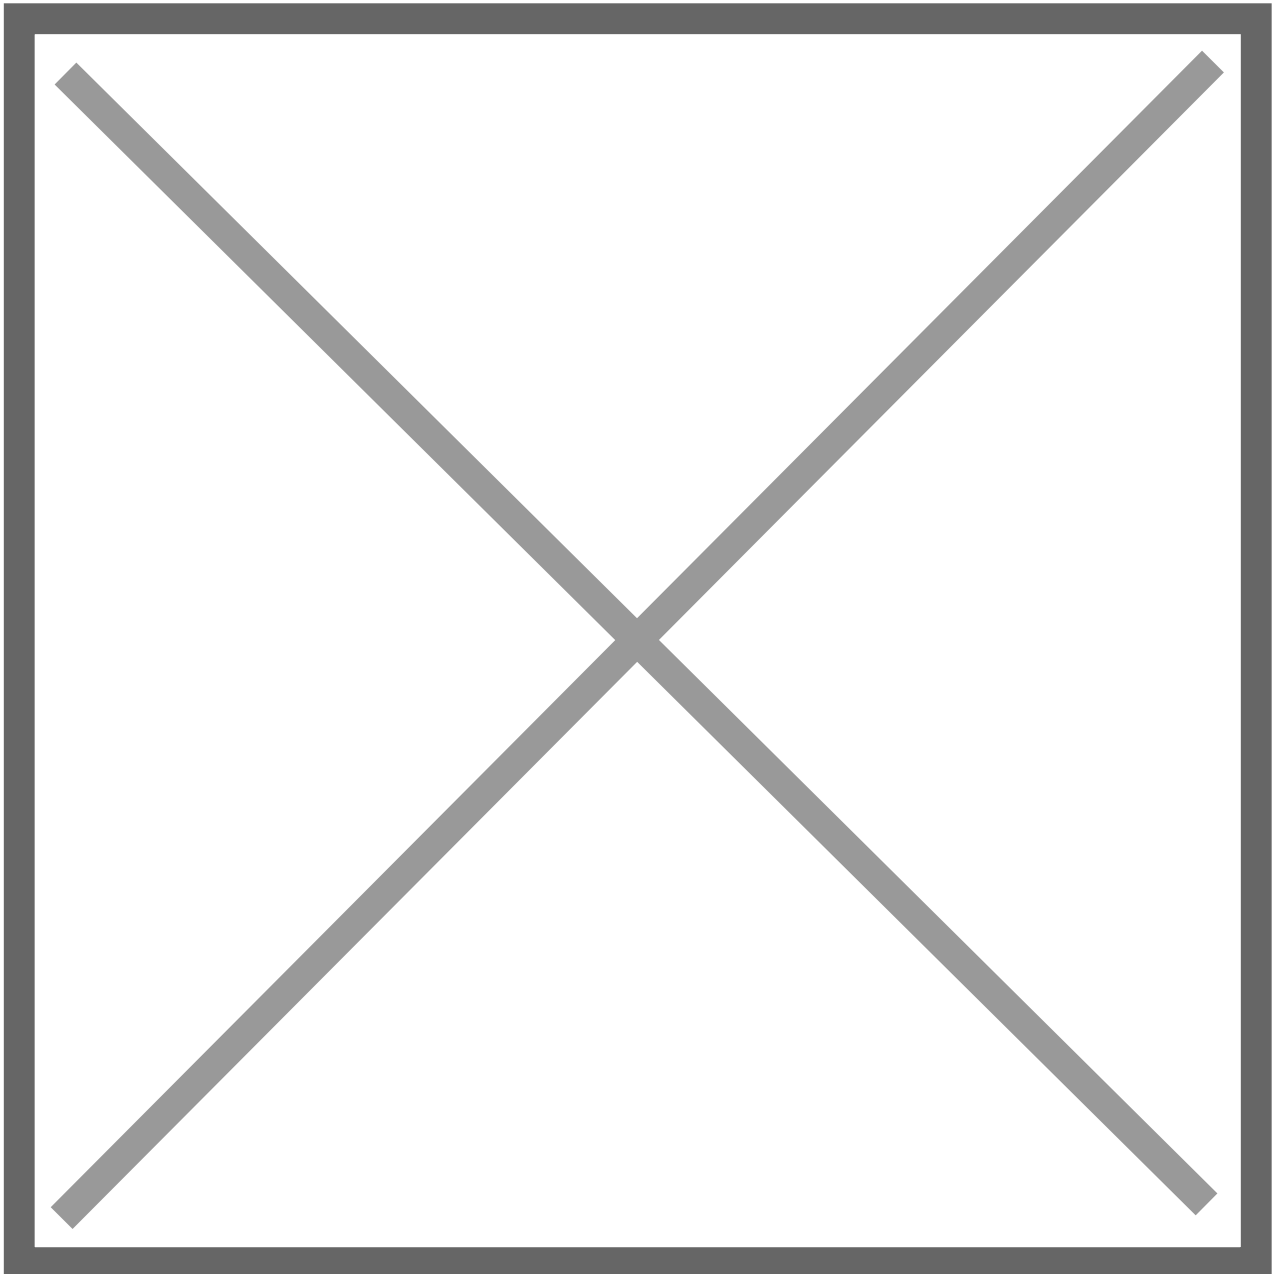

Select "**Participants**"

Select "**Enrolment methods**"

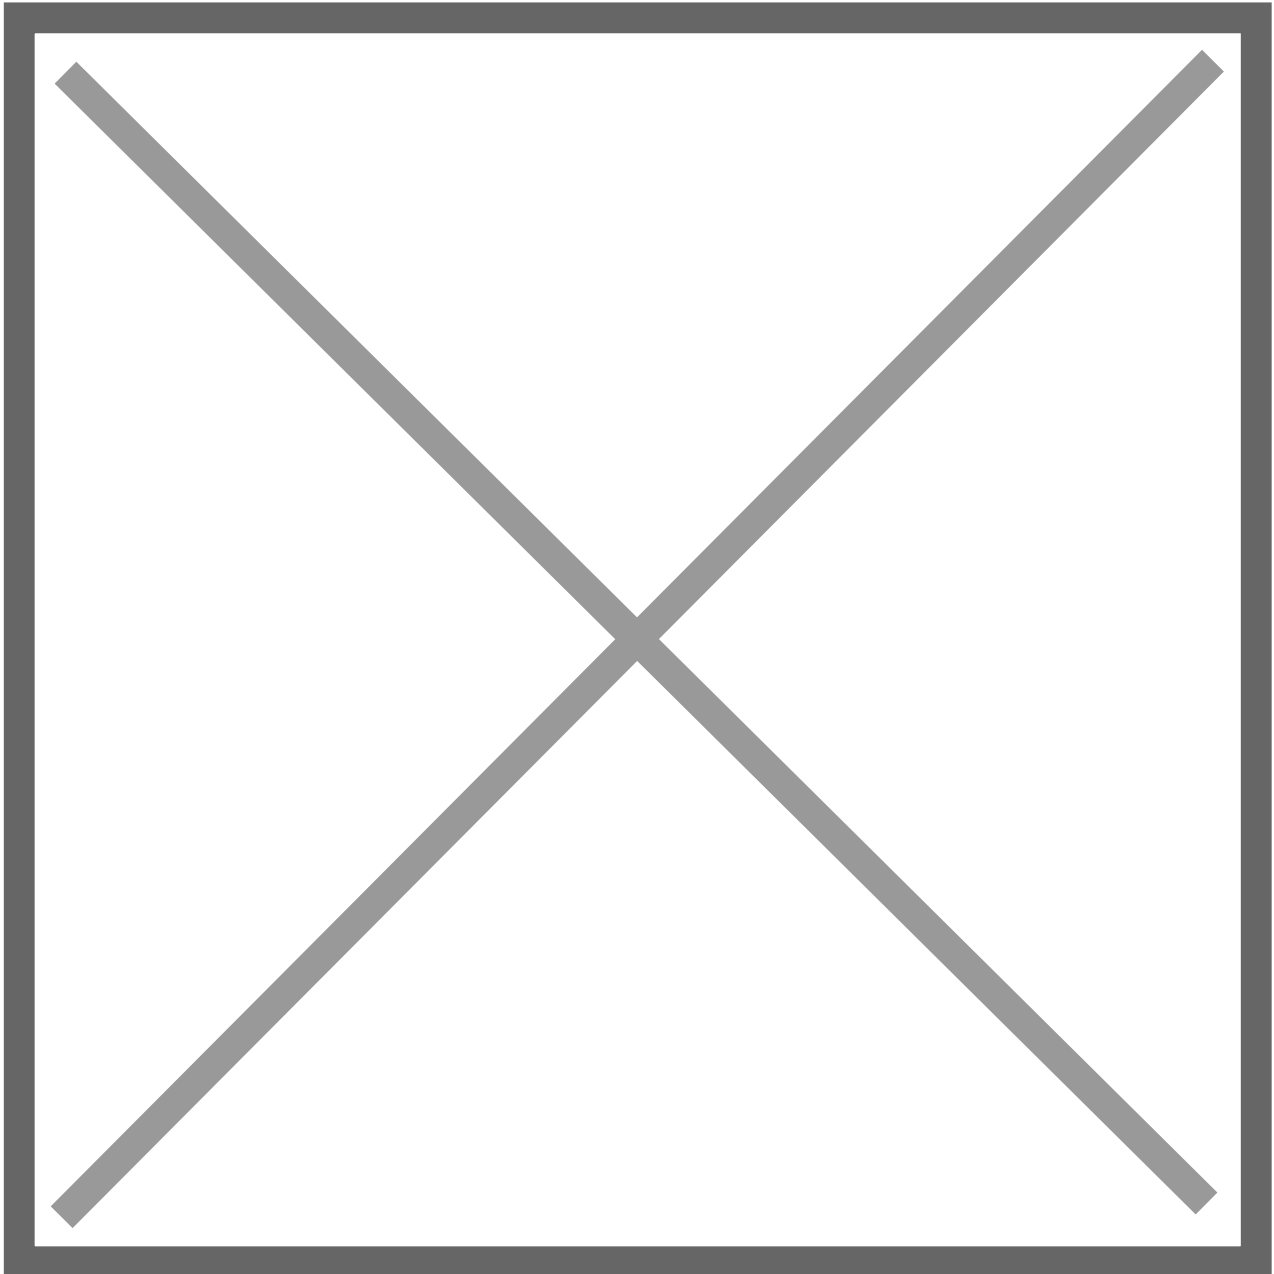

Add "**Stripe Payment**"

Complete the course enrolment Stripe settings

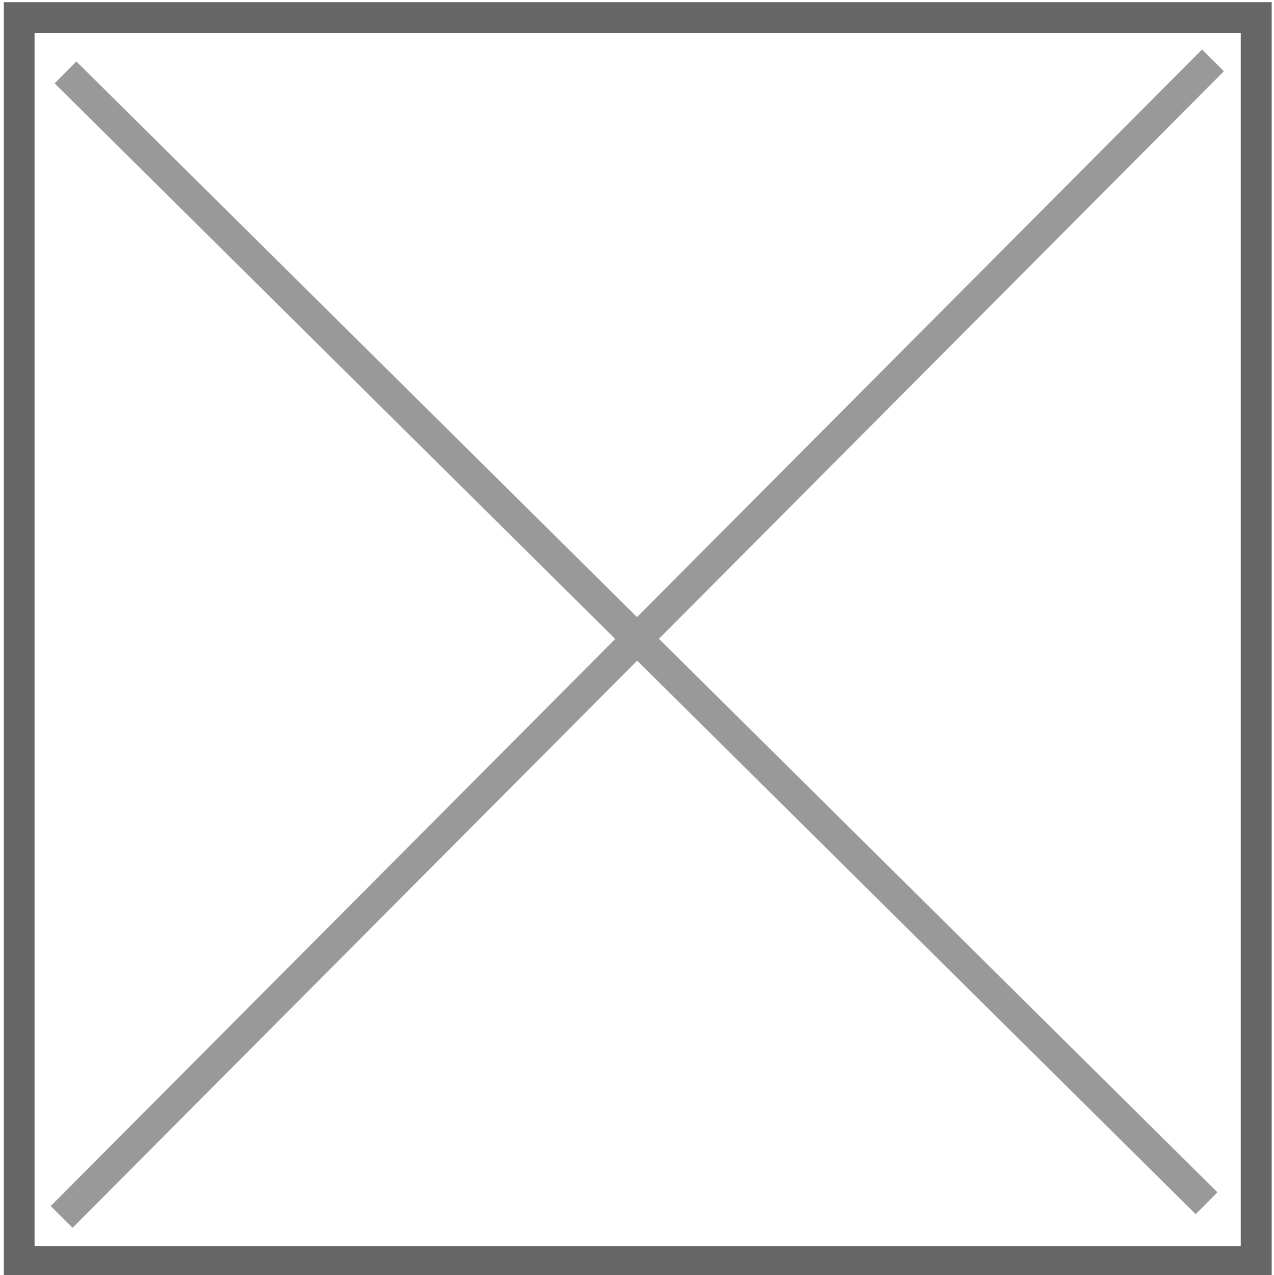

1. Enter the instance name
2. Enable Stripe enrolments for this course
3. Set the course cost
4. Select the preferred currency
5. Select the user role type

6. Enter the maximum number of enrolled users (Leave blank for unlimited)
7. Select the enrolment duration (Example, Give the user a set number of days to complete the course)
