Sell courses online with eLMS Course Checkout

23 Jan 2024

eLMS includes a user-friendly, category-based store known as eLMS Course Checkout. This feature allows users to effortlessly select and purchase courses offered within the eLMS service. The eLMS Course Checkout becomes operational after you have set up your initial course for sale, with all settings automatically configured for your convenience. **Additional**

Reading

- [Configure Stripe course payment method](#)
- [Configure Paypal course payment method](#)
- [Customise eLMS Course Checkout style](#)

Once you have your courses configured for payment visit the store **https://<Your eLMS URL>/store**

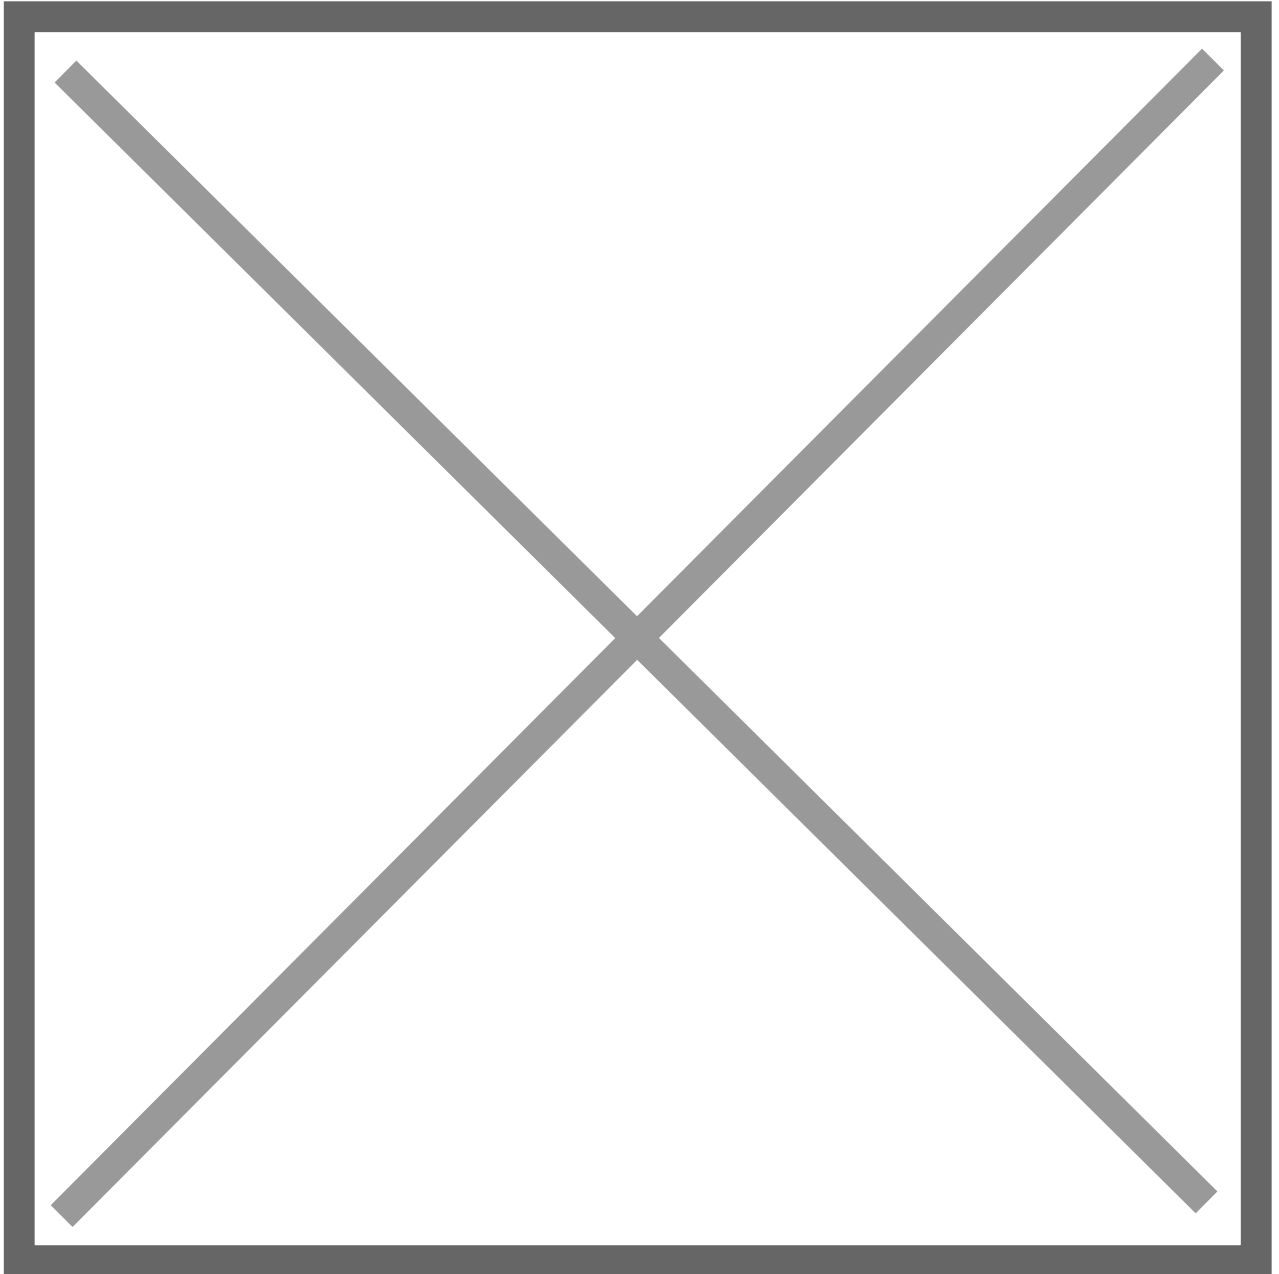

eLMS Course Checkout

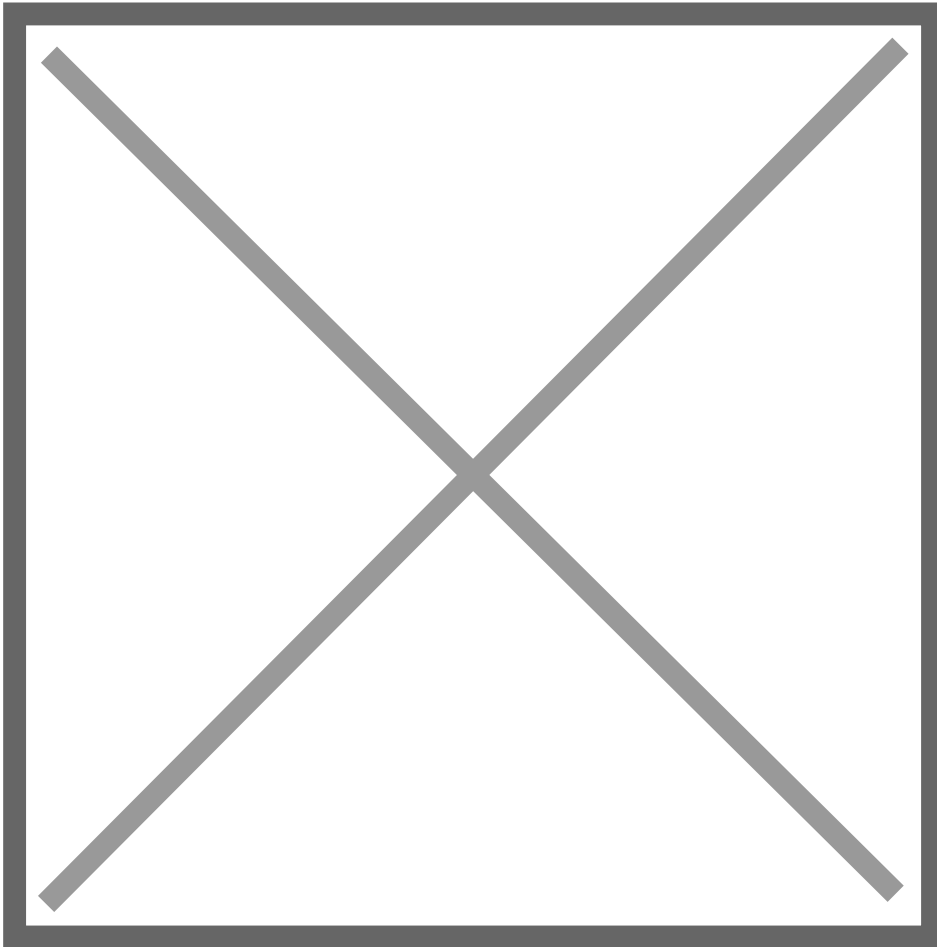

All courses configured for payment will appear automatically within the "Course Checkout"

Filter Categories

Users are able to browse courses available within specific categories using the "**Category Filter**"

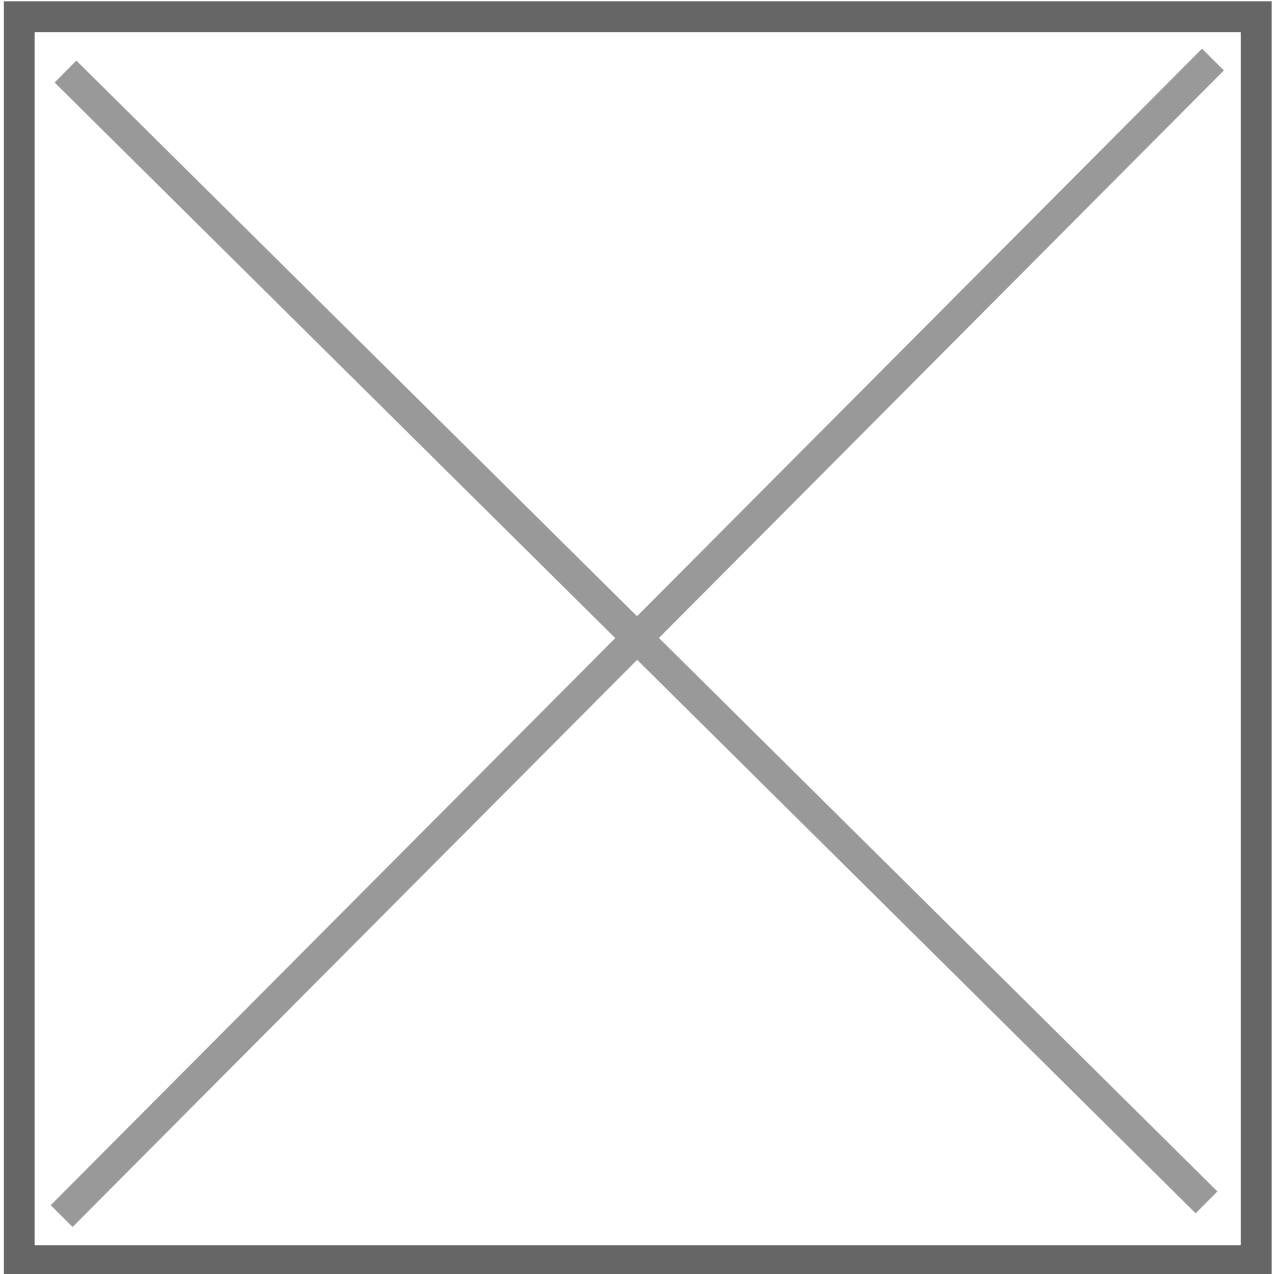

Course Listing

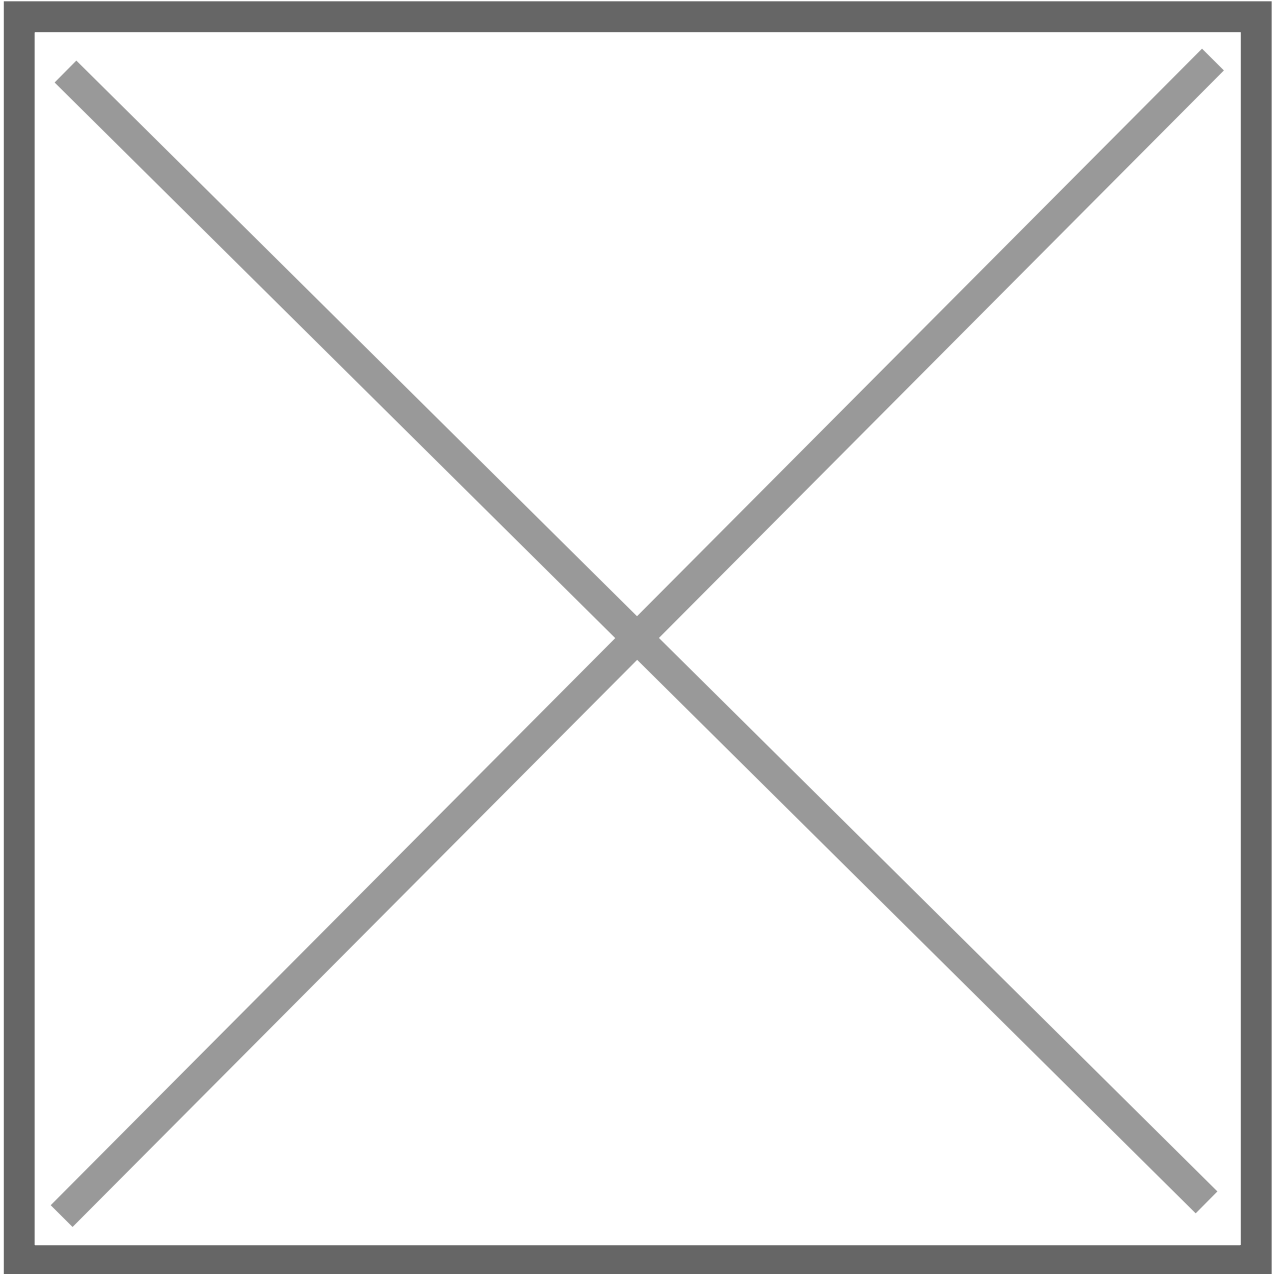

1 - Course Image

The course image is sourced from the course settings "**Course Image**"

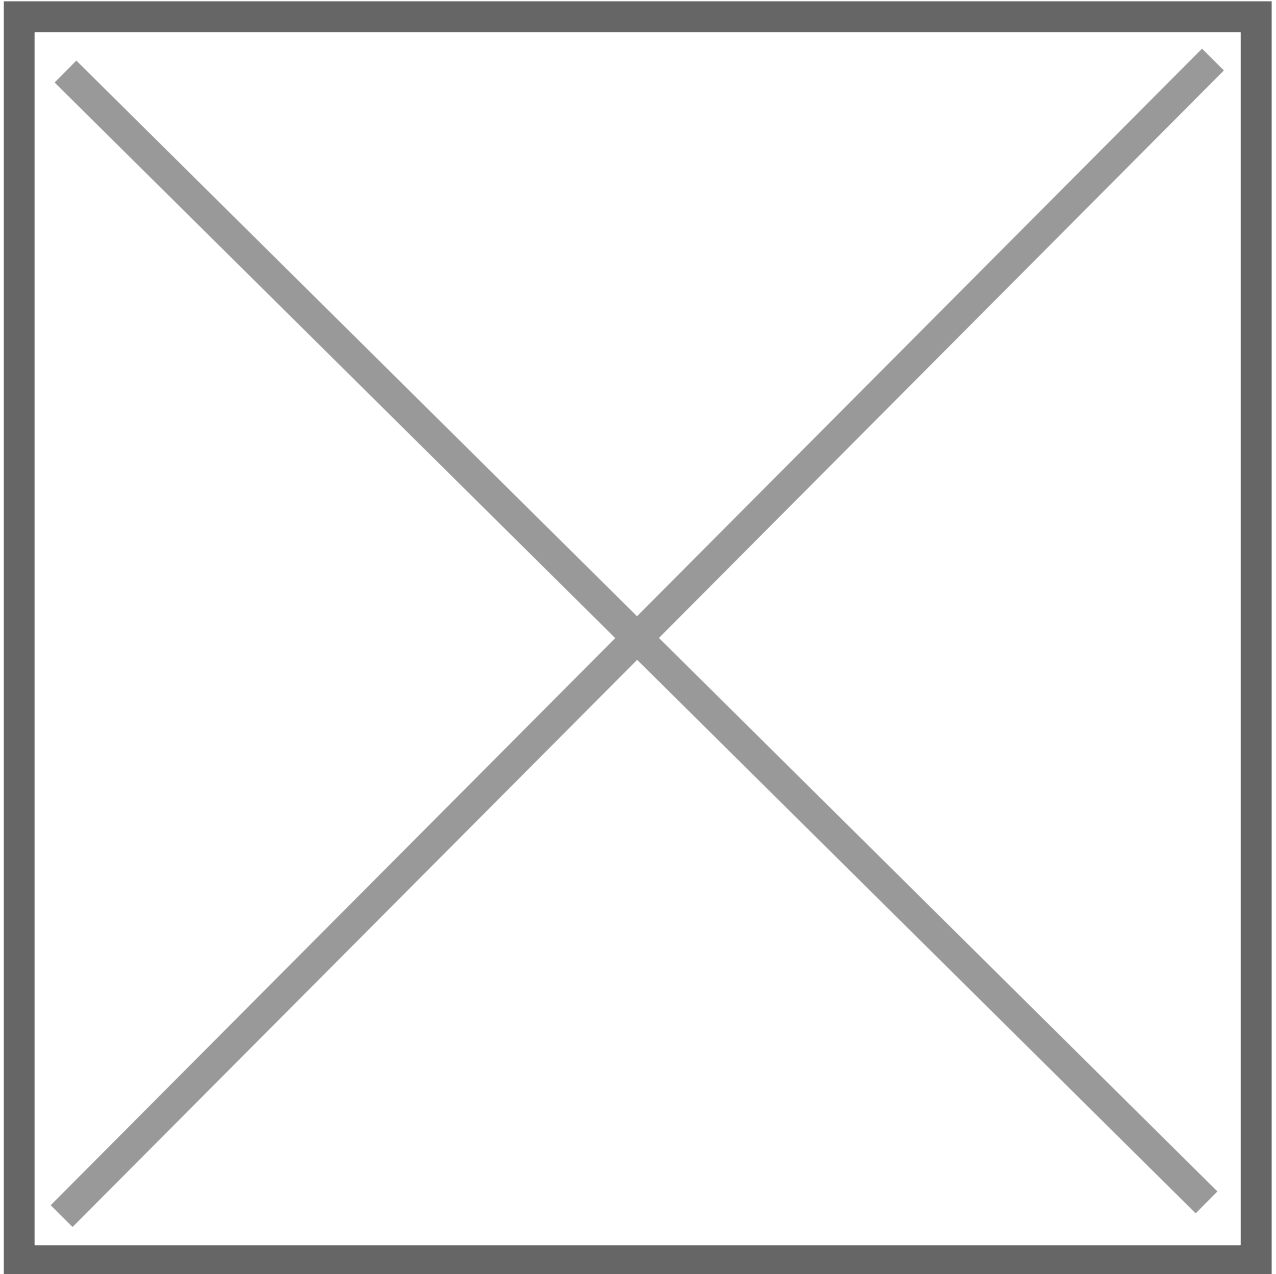

2 - Course Name

The course name is sourced from the course settings "Course Full Name"

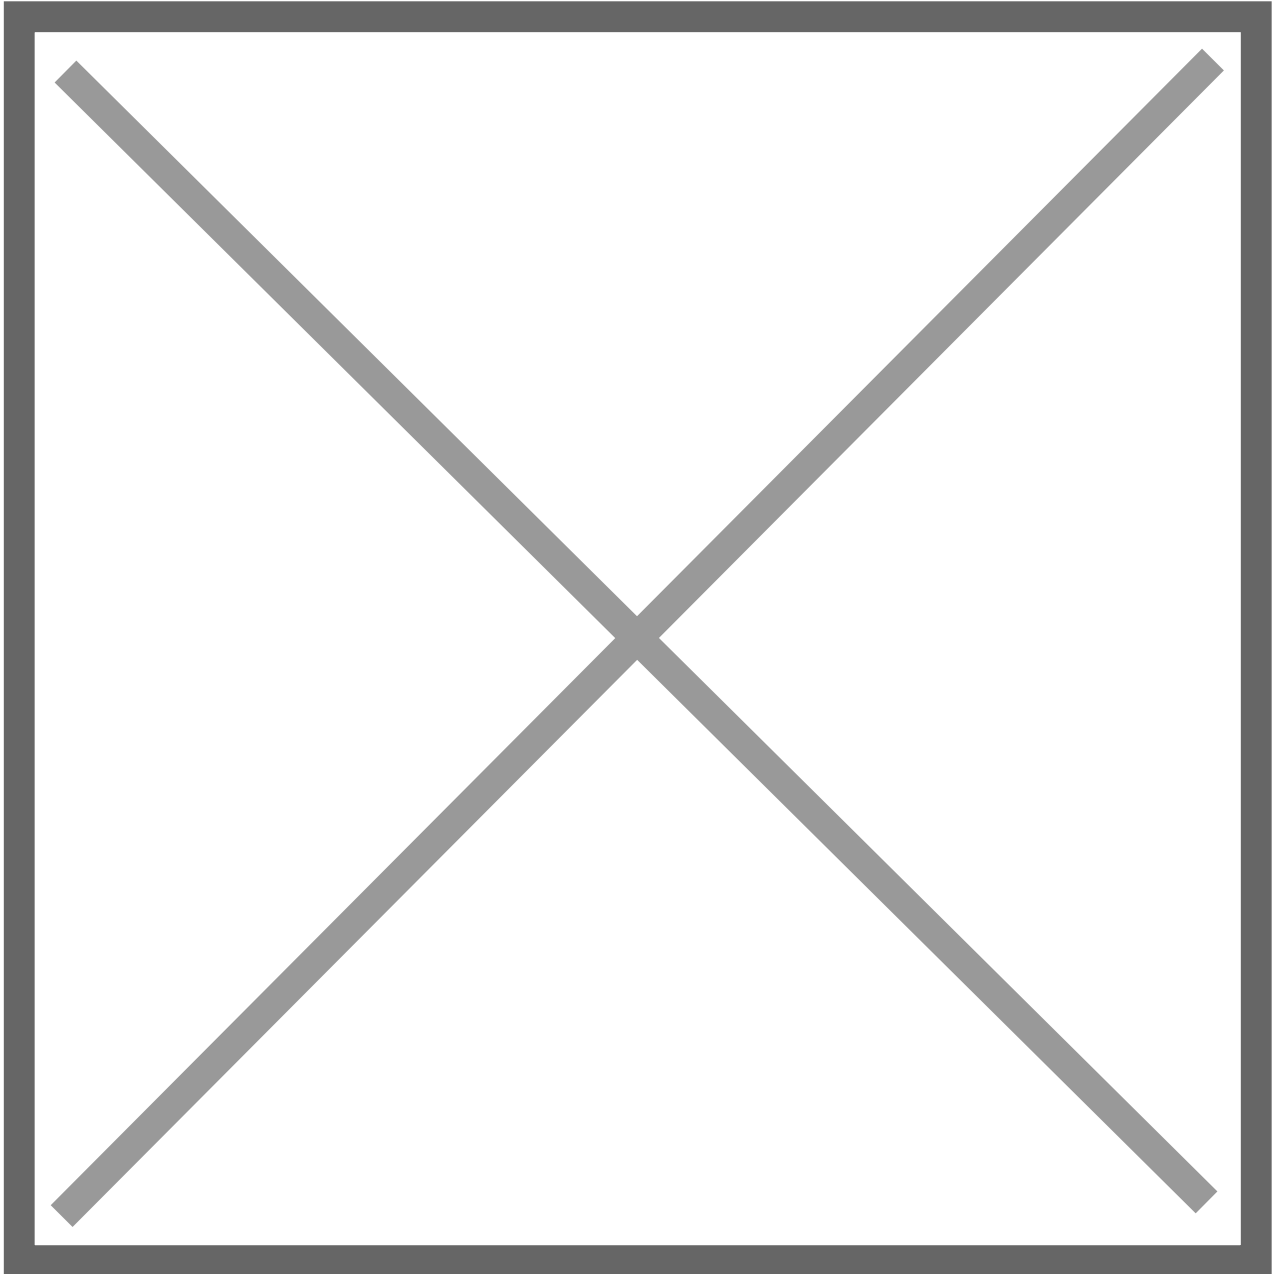

3 - Course Description

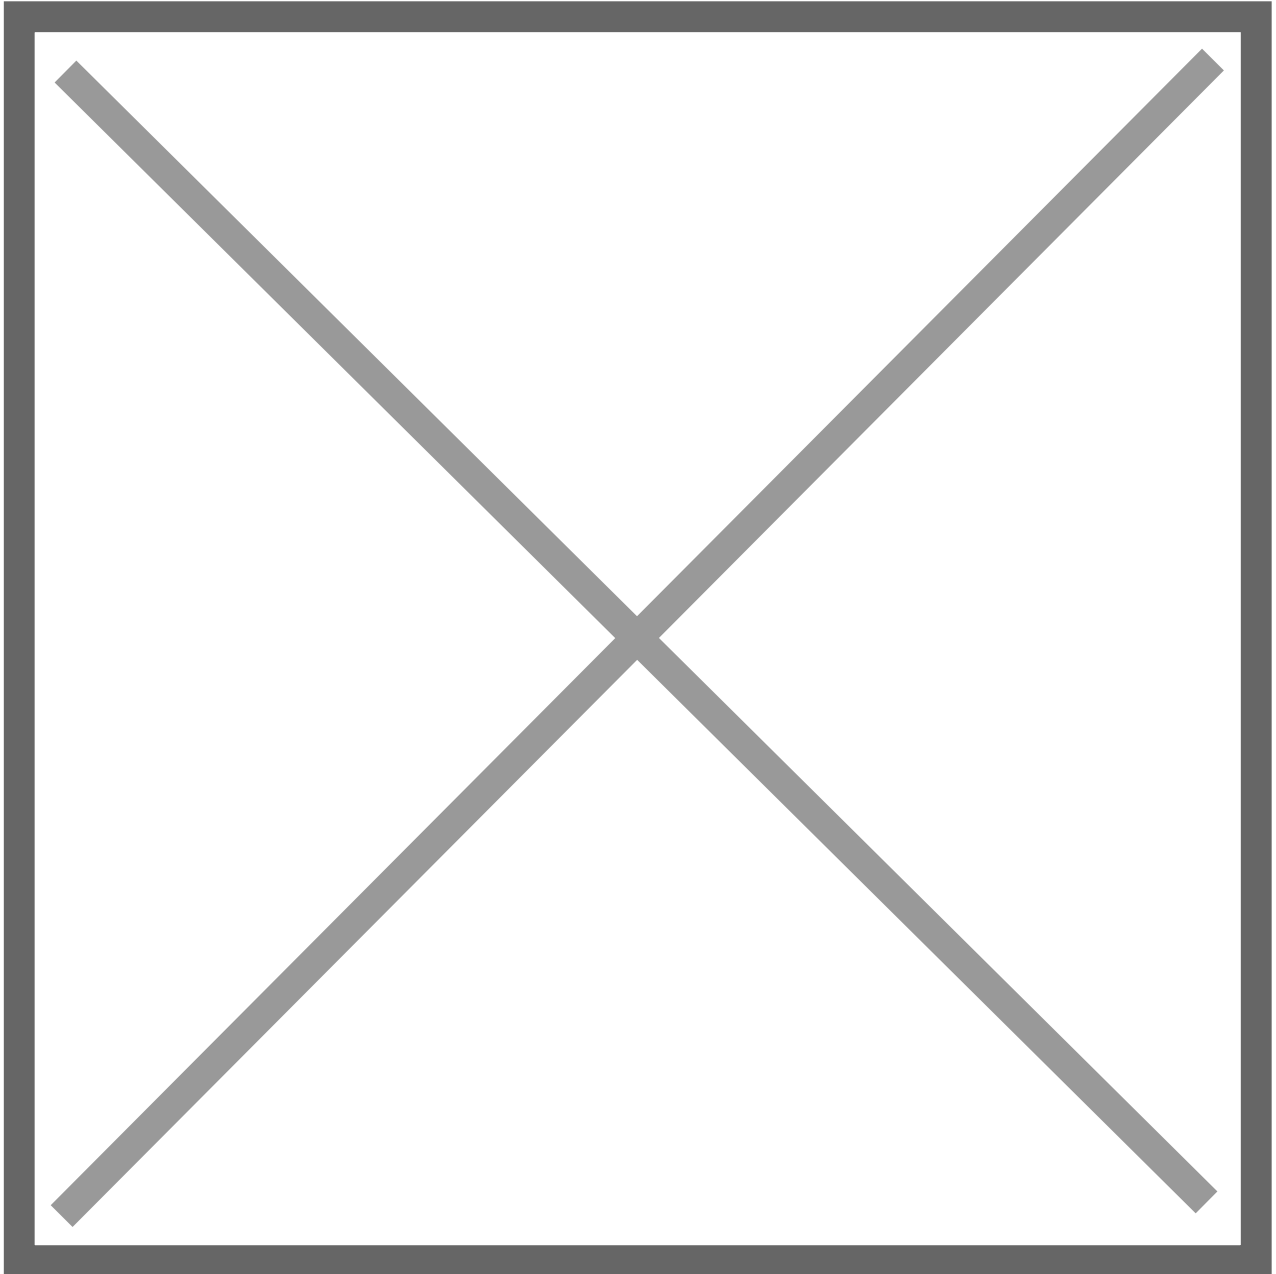

The course description is sourced from the course settings "**Course Summary**"

4 - Price

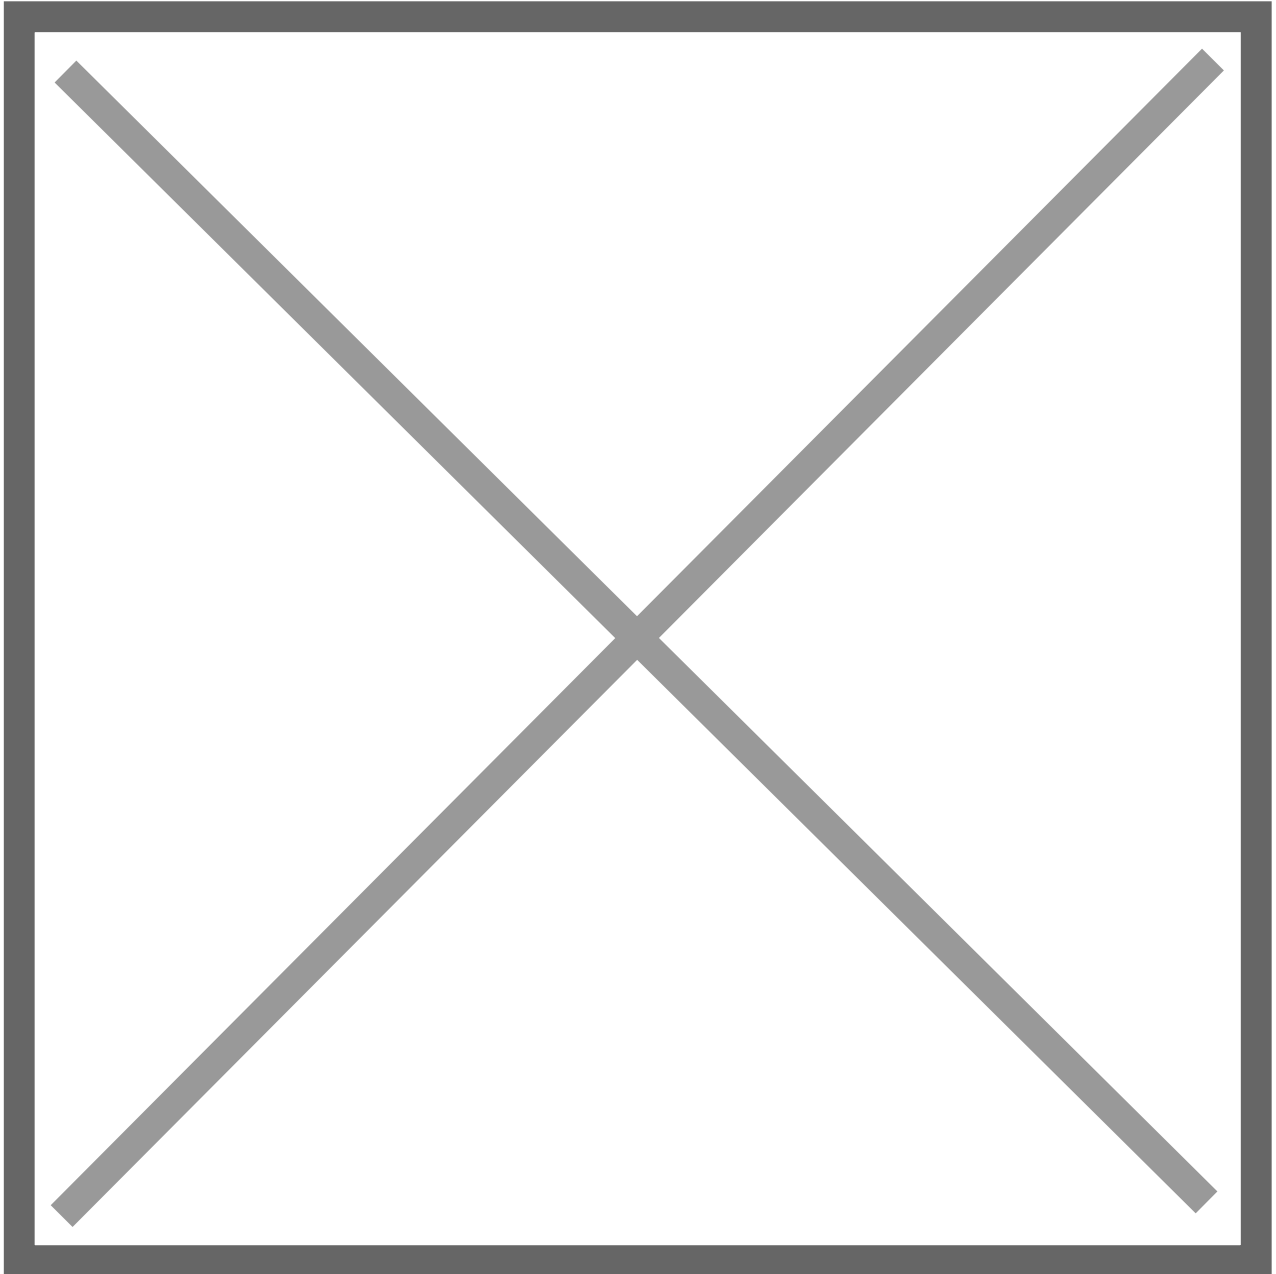

The price is sourced from either the stripe or paypal enrolment method -> Enrol cost / Currency.

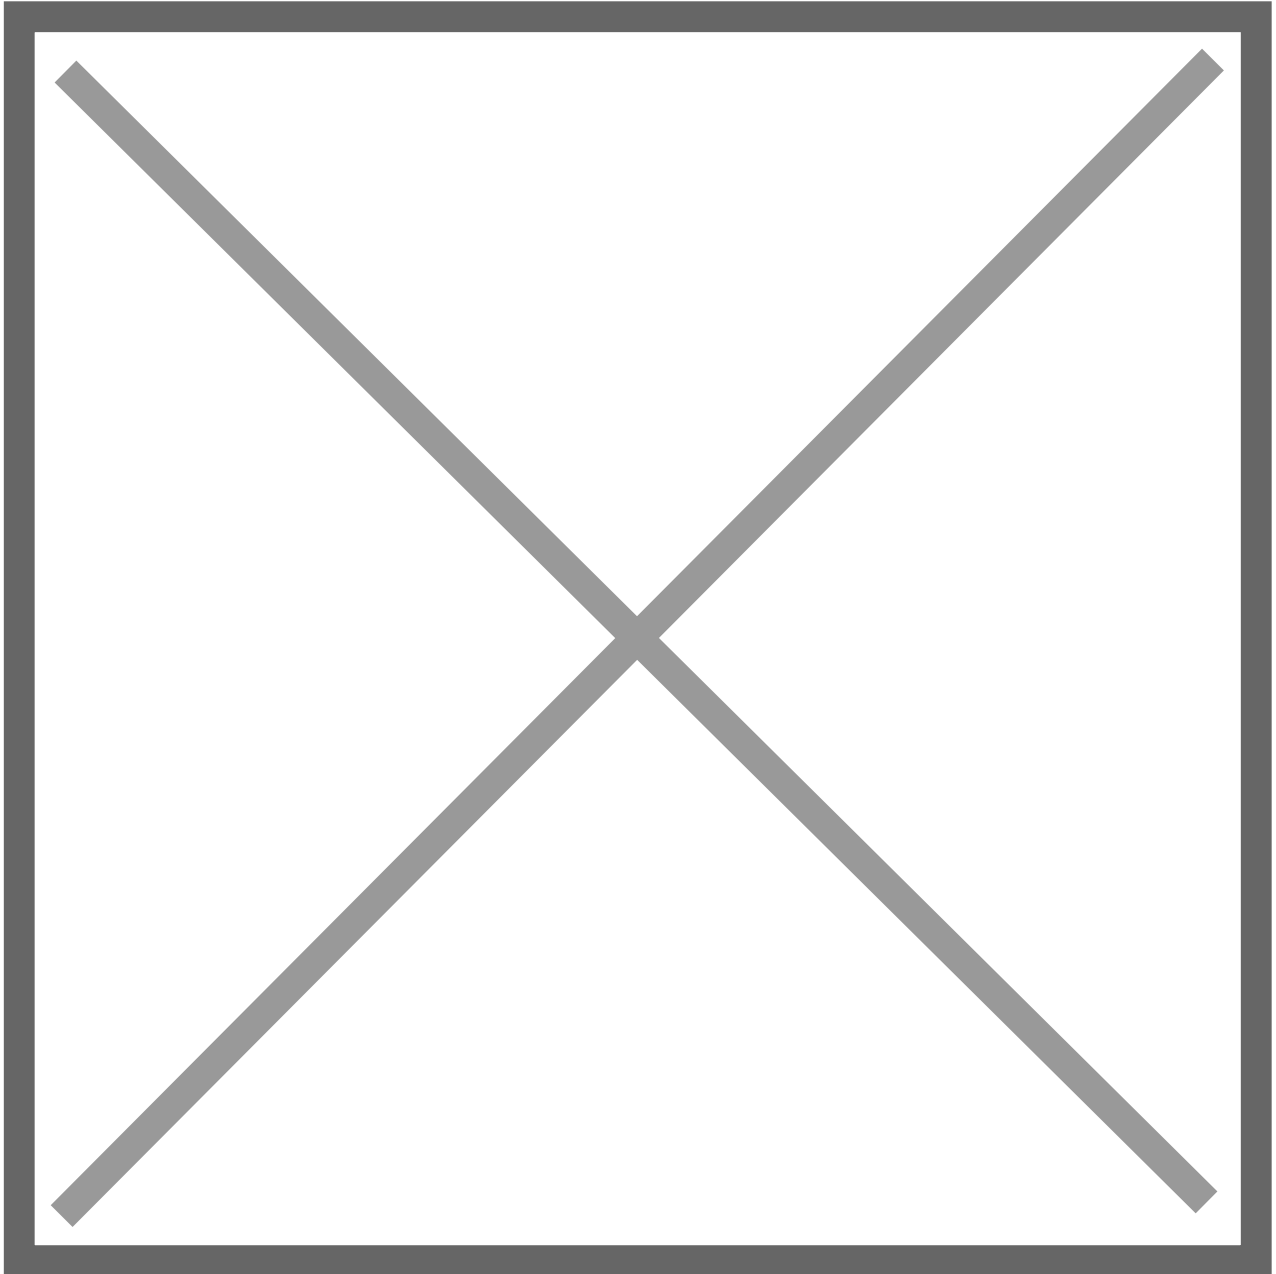

5 - View Modules

View modules allows the user to see Modules included within the course prior to purchase.

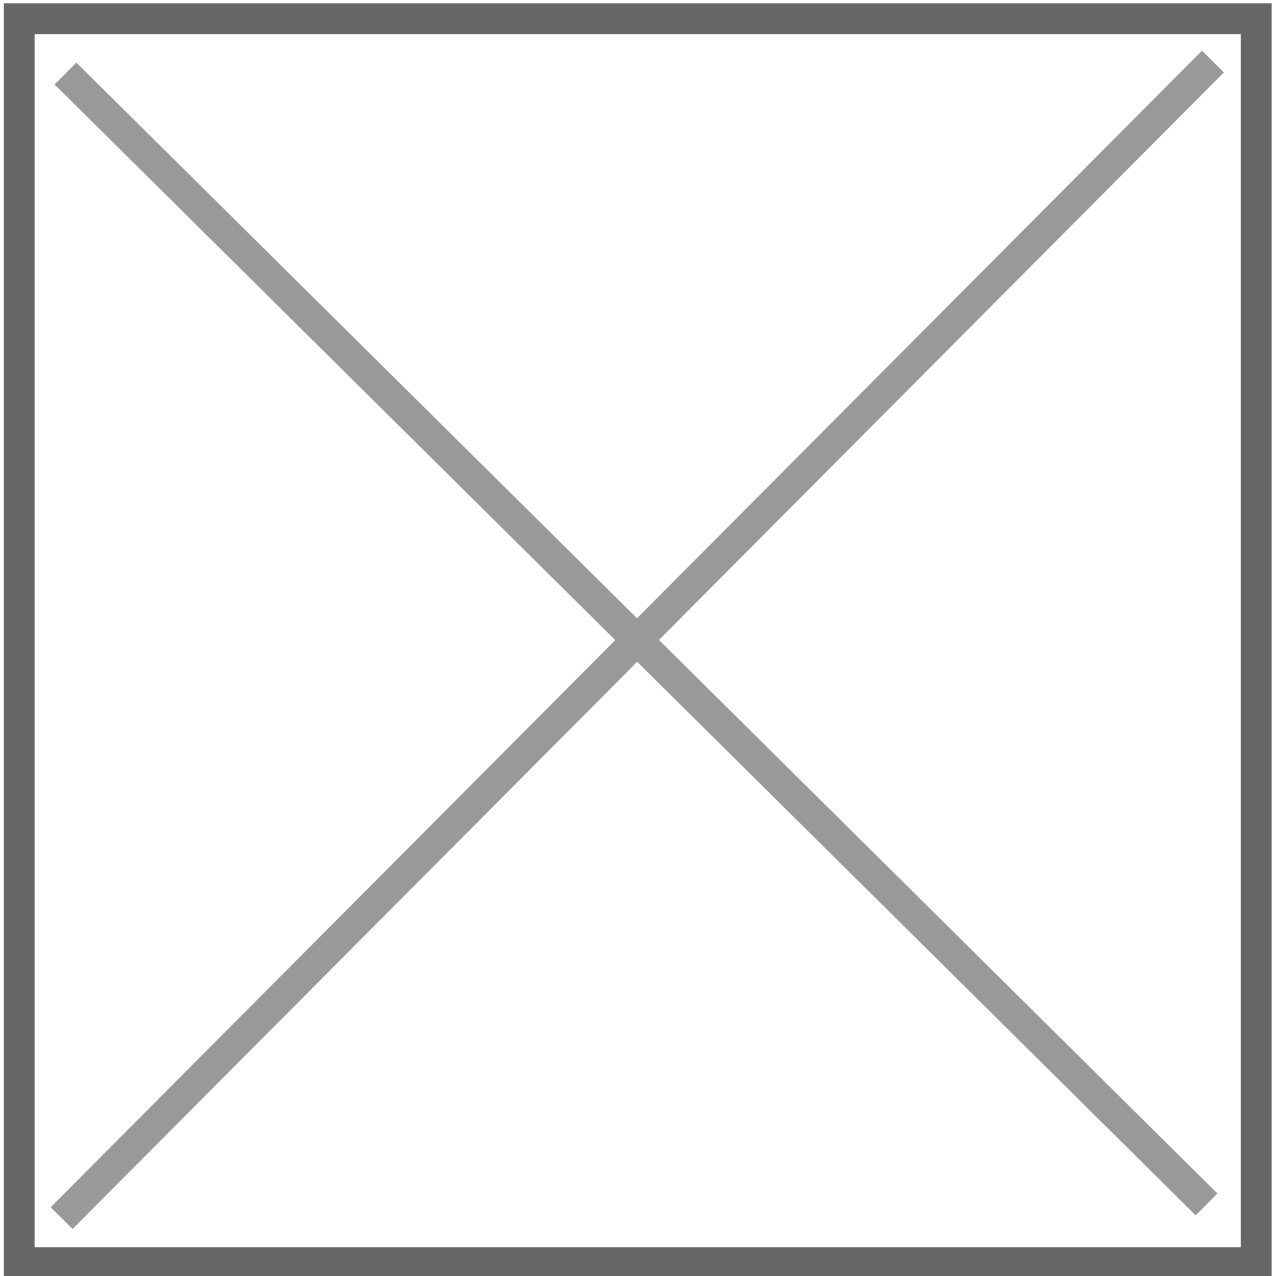

Module View Title

The module view title is sourced from the topic "**Section Name**".

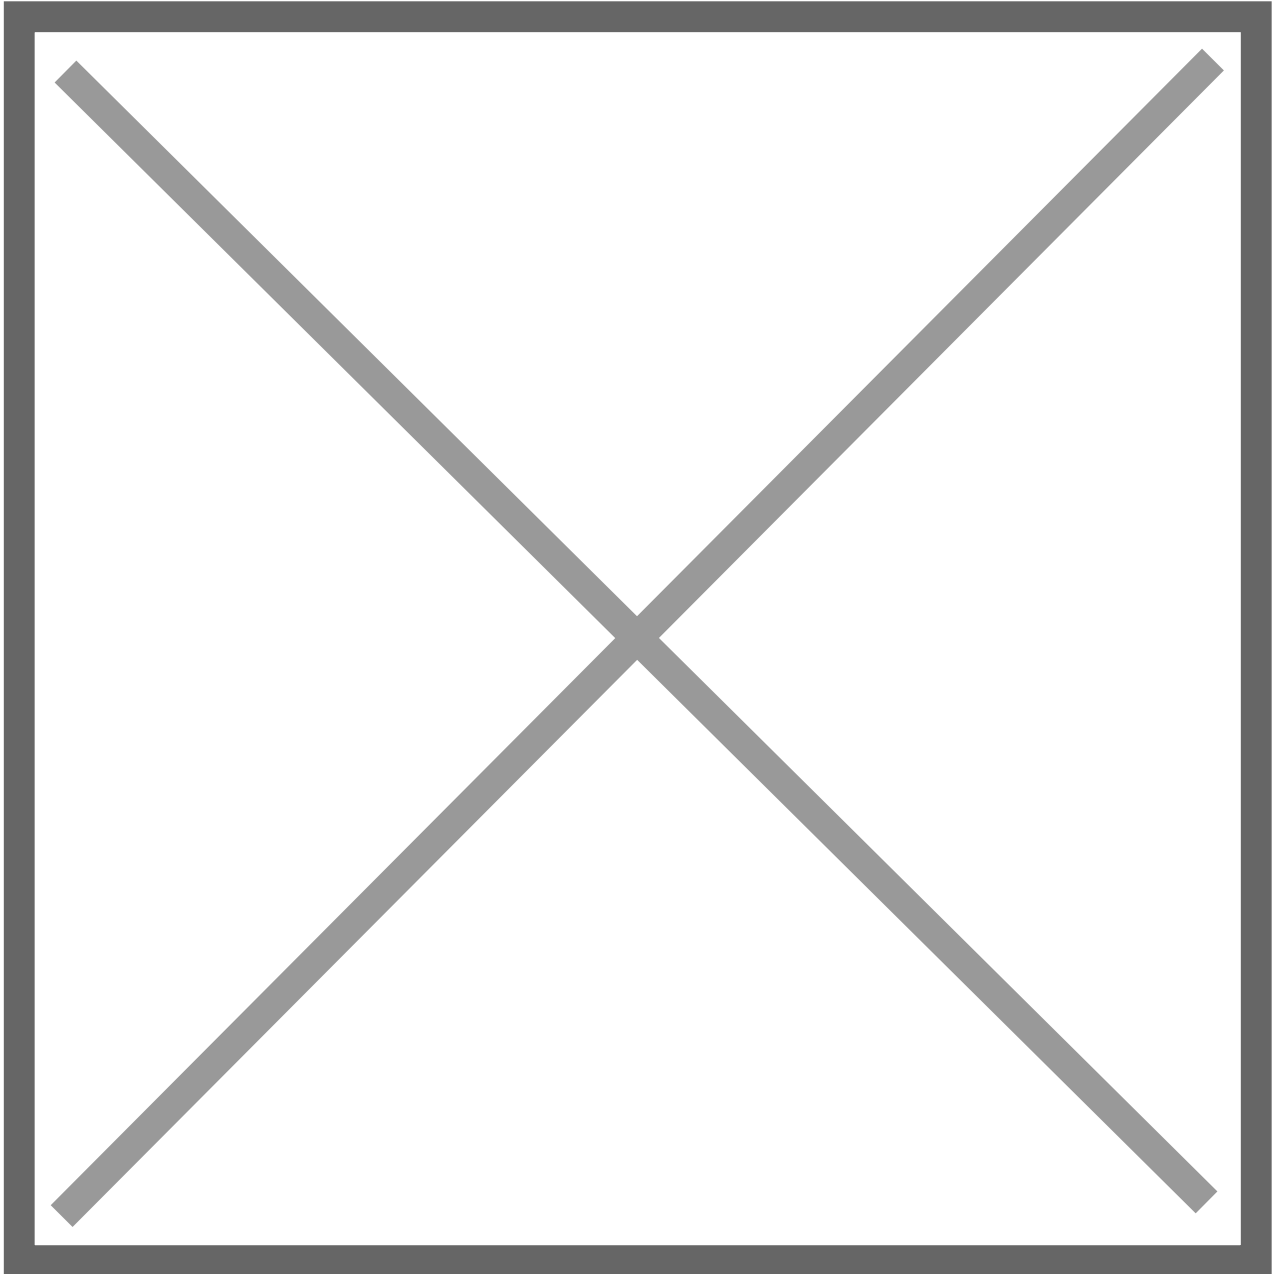

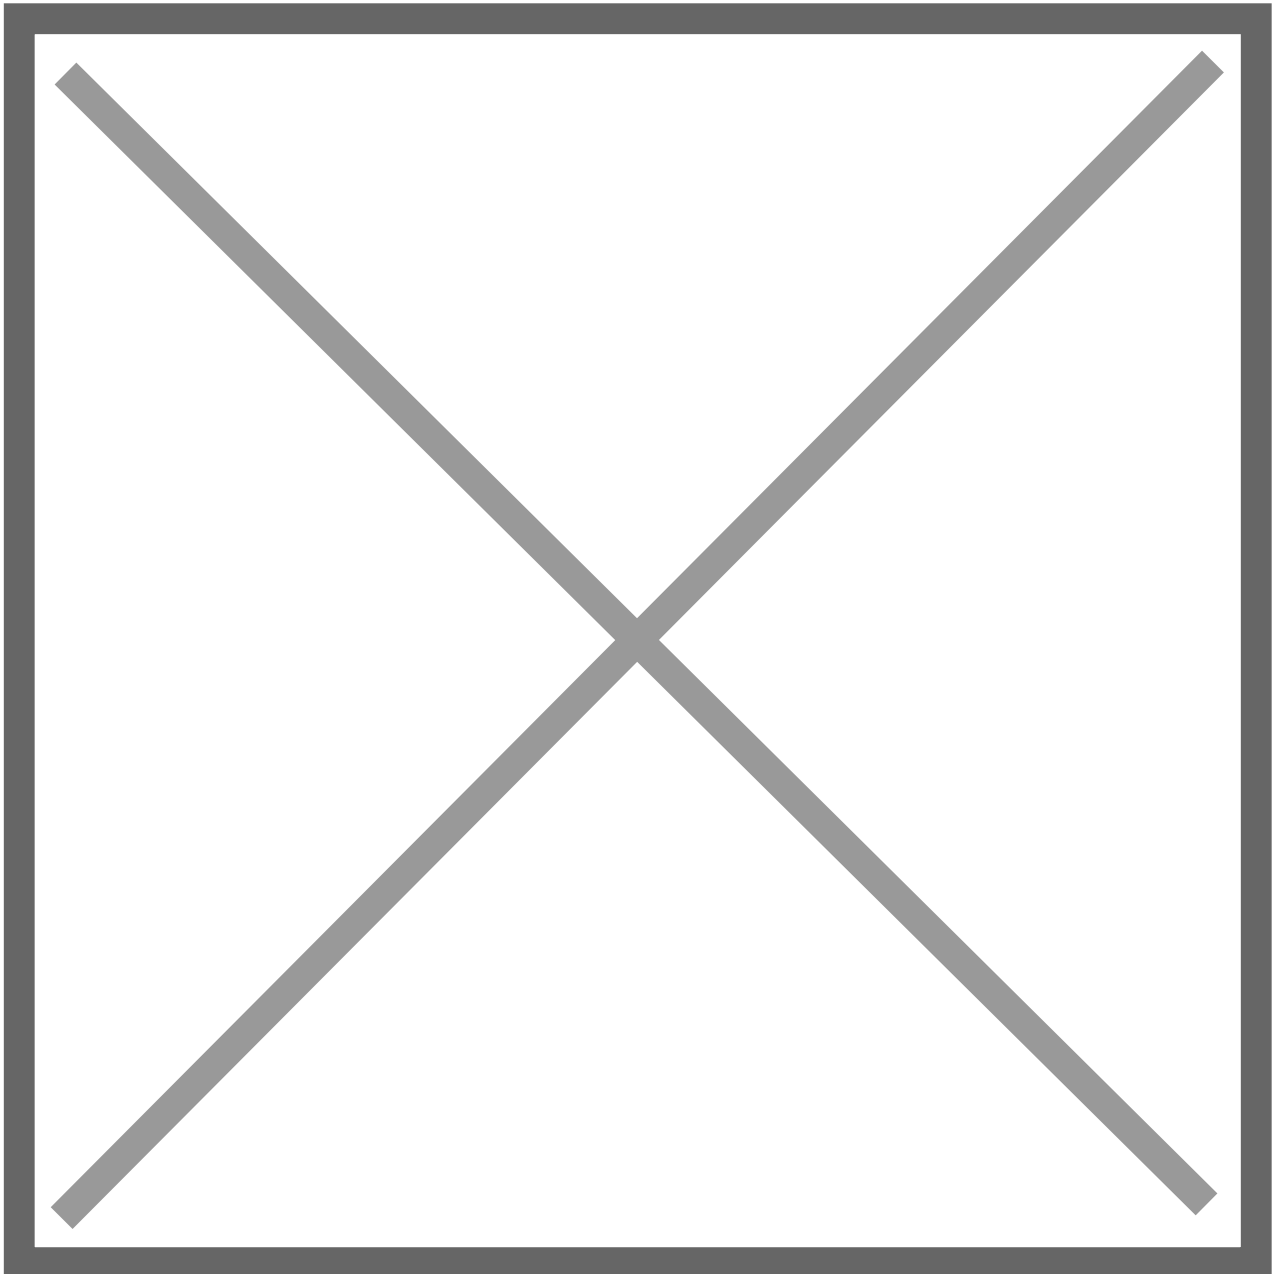

Module View Description

The module view description is sourced from the topic section "**Summary**".

6 - Buy Now Clicking buy now redirects the user to login/sign up or directly to the course buy now link.

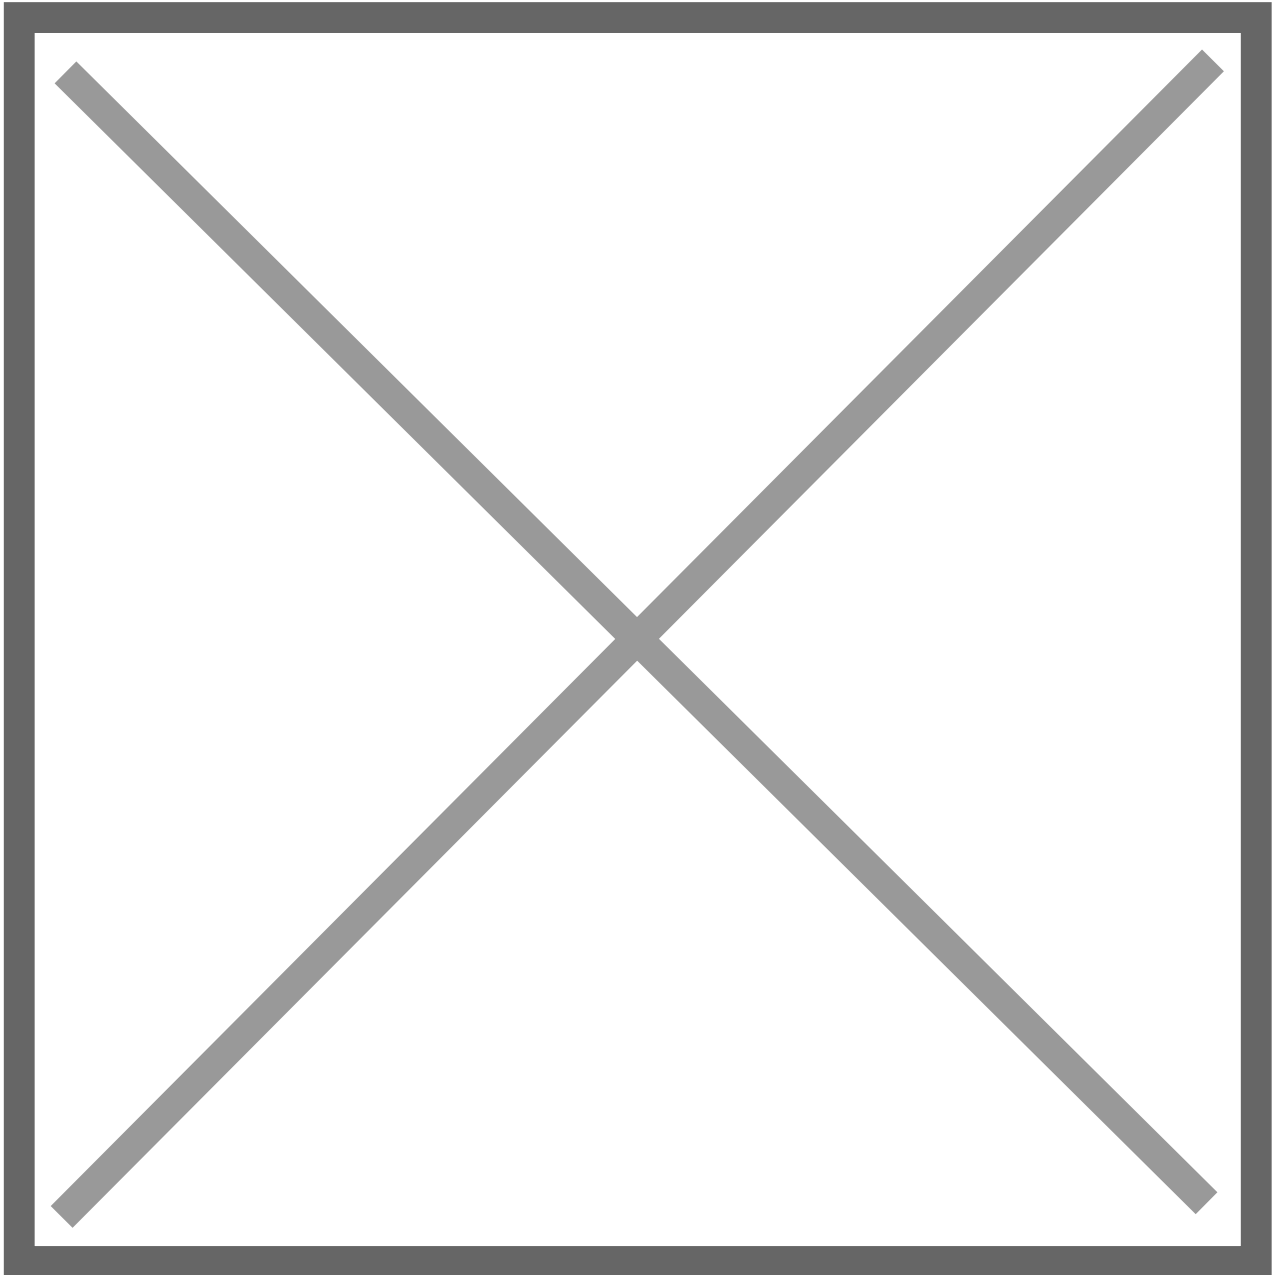

Users purchasing the course via this method have the freedom to pay using many options such as Credit Card, Master Card, Visa Card, Debit Card or digital wallets such as Apple Pay or Google Wallet.

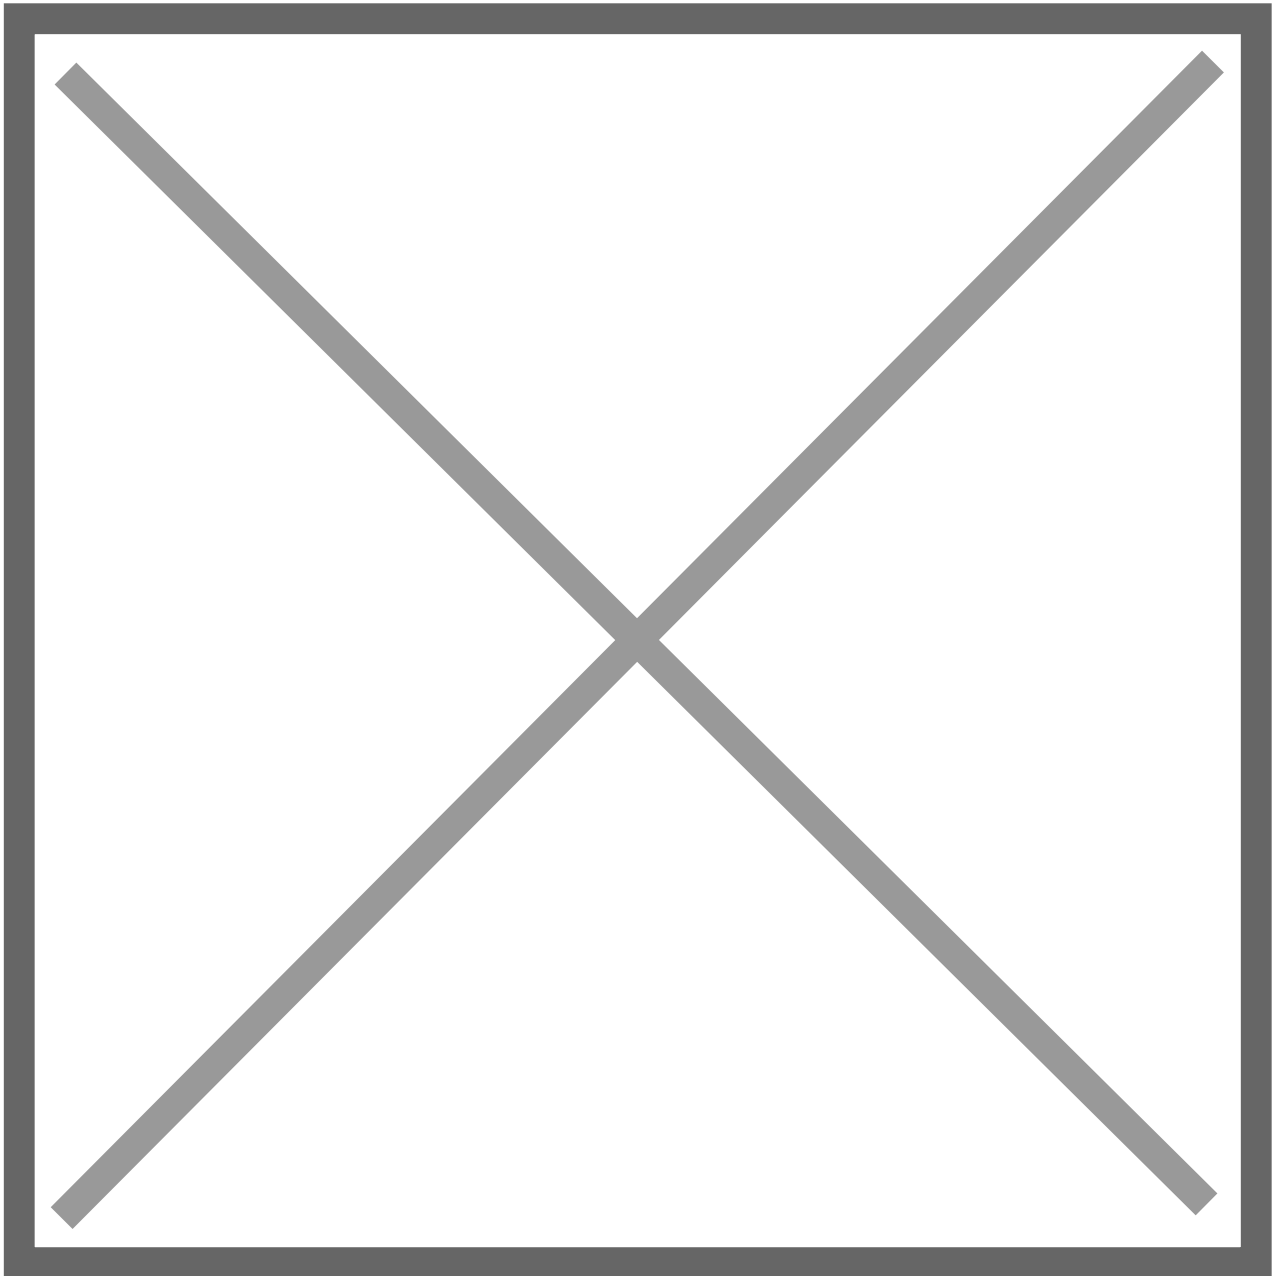

6 - Recommended eLMS settings

Disable "View Participants" for the student role. Disabling this option will ensure students enrolled onto the course are unable to view other students enrolled into the course. Site

Administrator -> Users -> Define Roles

Search for "Participants" and uncheck "View Participants" against course.

Click "save changes" **Also see;**
